**For Grip, Aches & Pains**  
**Dr. Miles' Pain Pills.**  
Sold by all Druggists.

## HONOR TO MARTINELLI

Reported He Will Be Made a Cardinal.

NEWS SAID TO HAVE BEEN POSTED

Dispatch From Rome to a French Paper Said Archbishop Martinelli Had Been Sent—Reported in Washington He May Be Named as Next Pontiff.

Paris, Feb. 6.—The Rome correspondent of The Times said a letter from the Vatican had been posted to Archbishop Martinelli, the apostolic delegate in the United States, notifying him that he will be created a cardinal.

Washington, Feb. 6.—While it was generally believed here that Archbishop Martinelli eventually will be created cardinal, the officials at the apostolic legation having nothing to make public on the subject and say the discussion of the question is at the time premature. A consistory of cardinals in Rome is looked for in the near future and if the archbishop is to receive the new honor referred to his appointment may be announced at that time.

## JOINT BADLY DAMAGED.

Mrs. Nation and Three Other Women Made a Raid—Others Afterward Arrested—Proprietor and Others.

Topeka, Kan., Feb. 6.—Mrs. Carrie Nation and three followers wrought damage to the extent of \$1,500 in the "Senate," the finest equipped "joint" in Topeka.

The police judge was glad to release her when she appeared for trial and administered a rebuke to that official.

Michael Wagner, supposed to be the owner of the "Senate," made the best of his opportunity, and promptly secured a quantity of liquor to supply the thirst of some of the crowds that poured into the place to view the wreckage. A number of persons were given souvenirs of the wreckage.

Later two deputies from Sheriff Cooke's office raided the place and arrested Wagner, Shep Lytle and two guards and took charge of the stock of liquors.

Chief of Police Stahl, in an interview with a reporter, said: "I do not care if Mrs. Nation smashes every joint in Topeka. I sympathize with her. I hope she will close up the saloons of the city. As an officer of the law, though it is my duty to arrest her every time she creates a disturbance or destroys property. If we had the right kind of state officers, it would not be necessary for Mrs. Nation to do what she is doing."

There are reports of plots to hurt Mrs. Nation. It was said that several saloon men have charged thick glass bottles with tremendous pressure, so that an explosion will follow their being broken. She is not at all disturbed by these stories.

Mrs. Nation dictated an appeal "to the children of the high schools of the United States," in which she urged children everywhere to smash saloon windows with rocks.

Chief of Police Stahl, followed by Sergeant Donovan and two policemen, entered the place, the crowd was dispersed and a bartender was arrested. The other bartender quit work. A keg of beer, a pump and four bottles of beer and two bottles of whisky were captured. The warrant for the proprietor was issued on request of Sheriff Cook.

When Mrs. Nation appeared in court to answer the charges of "disturbing the peace" and "smashing a joint" the first charge was dismissed, notwithstanding the crusader demanded a trial, and a hearing on the second charge was set for Thursday, the prisoner being released without bond. The charge followed her arrest on Monday after her fruitless attempt to wreck the Unique restaurant.

## TWO PERSONS KILLED.

Three Others May Have Been Fatally Injured In a Fire at Binghamton, N. Y.

Binghamton, N. Y., Feb. 6.—Two persons perished and three may have been fatally injured in a fire which totally destroyed the Exposition hotel in this city. The dead: Harry Severson, aged about 30 years, a musician, burned beyond recognition.

Sid Holland, aged 39, a horseman, suffocated.

Fatally injured: Tom Cook, a racing man, burned about head and body.

John Regon, face, head and body frightfully burned and internally injured in jumping.

Dora Darrow, back broken by jumping from a 25-story window. There were about 25 persons in the building, most of whom escaped. A number leaped from the second and third-story windows and a few of these were slightly hurt.

## ARMY NOMINATIONS.

Miles Nominated For Lieutenant General. Major General and Brigadier General Nominated by President.

Washington, Feb. 6.—The president sent the following nominations to the senate:

Among nominations by the president were these:

Army—To be lieutenant general, Major General Nelson A. Miles. To be major general—Brigadier General Samuel B. M. Young, U. S. A.; Colonel Adna R. Chaffee, Eighth cavalry, U. S. A. (major general U. S. V.); Brigadier General Arthur MacArthur, U. S. A. (major general U. S. V.).

Colonels to be brigadier general—John C. Bates, Second infantry, U. S. A. (major general U. S. V.); Colonel Lloyd Wheaton, Seventh infantry, U. S. A. (major general U. S. V.); George W. Davis, Twenty-third infantry (brigadier general U. S. V.); Theodore Schwan, assistant adjutant general, U. S. A. (brigadier general U. S. V.); Samuel S. Sumner, Sixth cavalry, U. S. A.; Leonard Wood, assistant surgeon, U. S. A. (major general U. S. V.); Robert H. Hall, Fourth infantry, U. S. A. (brigadier general U. S. V.); Robert P. Hughes, inspector general, U. S. A. (brigadier general U. S. V.); George M. Randall, Eighth infantry, U. S. A. (brigadier general U. S. V.).

Also Major William A. Kobbo, Third artillery, U. S. A. (brigadier general U. S. V.); Brigadier General Frederick D. Grant, U. S. V.; Captain J. Franklin Bell, Seventh cavalry, U. S. A. (brigadier general U. S. V.).

Samuel F. Bartlett, of New Jersey, to be collector of customs for the district of Little Egg Harbor, N. J.

## YOUTSEY SENTENCED.

Given a Life Term For His Part in the Killing of Goebel—Chained in Prison.

Georgetown, Ky., Feb. 6.—Henry E. Youtsey, stenographer to Governor Taylor during his incumbency, and who was tried as a principal in the shooting of Governor William Goebel and found guilty, was arraigned before Judge Cantrell and sentenced to life imprisonment.

When the sentence was pronounced Youtsey exclaimed:

"I am innocent. I have been convicted by base and infamous subornations of perjury."

No appeal will be taken and the prisoner will be taken to state's prison shortly.

## ZOAR INTERESTS DIVIDED.

The Town Now Governed Like Other Ohio Municipalities.

Canal Dover, O., Feb. 6.—The last act completing the dissolution of the Society of Communists at the historic village of Zoar, near here, which disintegration was begun over two years ago, was completed when the last surveys and apportionments were made. It has been a herculean task and the arbitration committee has had its hands full to please each of the 139 inheritors, or members of the society. Not only the building in the town of Zoar, but also the 7,000 acres of lands have been apportioned.

The valuation of properties received by each member averages about \$5,000. There was a spirited rivalry for the town property, but many received lands at the remote borders of the Zoar domains, and these will be obliged to build dwellings thereon. For the first time since the arrival, almost a century ago, of John Baumbler, the Zoarite leader, and his band of German followers, the community is now governed like other towns of its size in the state.

A mayor and councilmen have been elected, and have already entered upon their new duties. The new regime is an awkward one for the Communists, and it will probably be some time before they become familiar with the new system of government.

## PRIZE FIGHTER MAY DIE.

Badly Injured During an Affair, Not Far From Cincinnati.

Cincinnati, Feb. 6.—Frank Hinson, the colored pugilist who was knocked out in a glove contest by John Kramer Monday night, was in a very serious condition, and the physicians at the hospital last night had little hope for his recovery. The contest took place at Uhrig's hall at Reading, O., about 11 miles north of this city. None of the participants have been arrested as yet.

## STUDENTS WERE EXCUSED.

Refusal to Quarantine Dormitory, Owing to Scarlet Fever.

Wooster, O., Feb. 6.—Because Miss Inez Kinney, of Bellaire, O., became ill with scarlet fever in the Hoover cottage, a part of the girls' dormitory of the Wooster university, it was decided that the 60 young women quartered there would have to be quarantined. The faculty, rather than submit to this, excused all of the students for two weeks.

George and Francis Lowman, charged with assaulting Ginger Blue, a negro who had previously stabbed one of them and who was sent to the penitentiary for the offense, escaped from a constable at Stenbenville, O. The charge had been brought by Blue's wife.

## CHURCH FEDERATION.

National Conference Held to Promote Movement.

DIFFERENT SECTIONS REPRESENTED

Churches of Various Denominations Sent Representatives For the Forming of a Union of Churches and Christian Workers—Federations Formed.

Philadelphia, Feb. 6.—Delegates sent by churches of various denominations from nearly every section of the United States met in conference here for the purpose of forming a national federation of churches and Christian workers. The sessions will continue until tonight. The meeting is the result of a conference held in New York last February, at which a national committee was appointed to ascertain the best method of organization. The present conference was called by this committee.

J. Cleveland Cady, of New York, chairman of the committee, presided and made the opening address. The Rev. E. B. Sanford, D. D., of New York, secretary, read the report of the committee, which stated that during the past year local federations had been formed in Chicago, Syracuse, Schenectady, Jersey City and Portland and Auburn, Me. The report detailed the work of the committee since its appointment and concluded with the statement that "co-operation and not competition is to be the watchword. Working together the churches will minister to human needs as never before."

Benjamin G. Welch, of Sonestown, Pa., addressed the conference at length on "International Affiliation." At the afternoon session Tuesday Rev. Frank Mason North, corresponding secretary of the Methodist Episcopal Church Extension society, of New York, spoke on "Federation in City Evangelization" and there was a general discussion of "local federations and their work."

## CARNEGIE TO RETIRE.

New York Paper Reported That He Has Sold Out to the Morgan Interests.

New York, Feb. 6.—The Tribune today was expected to say: Negotiations for the sale of Andrew Carnegie's controlling interest in the stock of the Carnegie company were brought to a successful conclusion on Monday, J. Pierpont Morgan and his associates being the purchasers. The terms of the transaction cannot at this time be announced, but the transaction is a colossal one, rivaling the recent change of control of the Southern Pacific, when that property passed into the hands of Union Pacific interests. Mr. Carnegie held nearly 51 per cent of the \$160,000,000 of the Carnegie company. This stock has not been listed on any stock exchange, but \$1,500 was recently paid for a \$1,000 share in the Carnegie company. Assuming that Mr. Carnegie has disposed of his holdings at par he will receive fully \$85,000,000 for his interest, while at the same time he will retain his 53 or 54 per cent interest in the \$160,000,000 bond issue of the Carnegie company. The object aimed at by Mr. Morgan and the interests allied with him when treating with Mr. Carnegie was the assurance of an enduring peace in the steel industry of the United States, and this condition is now believed to have been obtained.

## Passed a District Bill.

Washington, Feb. 6.—The senate Tuesday passed the District of Columbia appropriation bill and partially considered the bill making appropriations for the support of the West Point military academy. During the day the ship subsidy bill, by a vote of the senate, was formally laid aside and superseded as the unfinished business.

## Emperor Left London.

London, Feb. 6.—Emperor William and his son, the crown prince, and others left London for Port Victoria, where they were to embark on the royal yacht Hohenzollern for Germany. The emperor received ovations. The king and Duke of Connaught accompanied them to the railway station.

## Unknown Man Assaulted.

Cumberland, Md., Feb. 6.—An unknown man, aged about 30, unconscious and covered with blood and wounds, was found in a brick yard at Ellerslie, Md., and brought here last night. He was well dressed. He had been beaten with iron tongs and bricks, and his condition is critical.

## A Wife Murderer Hung.

Camden, N. J., Feb. 6.—Robert F. Hill was hanged in the county jail for the murder of his wife, Edith. The execution was without incident. Hill showed no evidence of fear and met death bravely. He was 28 years old and the wife, whom he murdered, was 23 years old.

## Death Followed Injury.

Greensburg, Pa., Feb. 6.—John Kletti, an Italian miner, had his skull crushed in the Millwood shaft by coming in contact with the roof while riding on top of a car, causing his death in a few minutes.

## STOCK MARKET ACTIVE.

But Prices Went Through Variations on Tuesday—Movements of Some Stocks.

New York, Feb. 6.—The market Tuesday was very active and ended the day generally higher, but prices of stocks went through many variations in the course of the trading. Monday's leaders in the speculative advance, including Louisville and Nashville, Atchison, Union Pacific and Rock Island, were all carried below Monday night's level, and the drooping tendency of Southern Pacific became more manifest. With weakness in these important stocks after Monday's large buying in them for speculation, the whole market necessarily made some response, and the earlier gains elsewhere were largely curtailed. The steel stocks showed themselves not so yielding as those in other portions of the list, and when the force of the selling movement had expended itself the recovery in the steel stocks was an important influence on the markets. Buying was credited to insiders, and there was a recurrence of recent rumors of coming wholesale consolidation of the great corporations in the trade. The opening rise in the south-westerns was not so well maintained, although Missouri Pacific made a strong recovery later, rising to 91 1/2, and the Wabash securities were very largely bought. It was rumored Chicago and Eastern Illinois had passed to the control of the Missouri Pacific or St. Louis Southwestern, and the lately prevalent rumors of a general consolidation of the Southwestern railway systems still reckoned their force in the speculation. Chicago and Eastern Illinois rose 5/8 and the preferred 1/4. A spurt of 3/4 in Tobacco about midday was a feature. There were a very large number of stocks of smaller railroads which advanced sharply under the prevailing impression that absorption of such roads by the larger railroad systems is the order of the day. Rocking Valley rose 4/8, do preferred 5/8, Pere Marquette 5, Minneapolis and St. Louis 2 1/2, Evansville and Terre Haute 5, Lake Erie and Western 2, and quite an extended list from 1 to 2 points. The most important movement of the day was in the larger dealings, when the coals and Pennsylvania developed sudden and aggressive strength, after showing symptoms of heaviness earlier in the day on a statement that the dividend on Reading first preferred would not be increased for the present. The movement seemed to be based on rumors as to the disposition of Lehigh Valley, different reports assigning it to Lackawanna, Reading and Erie. Gains on the movement were 3/4 for Lackawanna, 3 for Delaware and Hudson and from 1 to 2 for other members of the group. The movement in Pennsylvania was not explained, but it resulted in an advance of 4 points. Union Pacific and Southern Pacific also succeeded in throwing off their depression, the former advancing to 91 and the latter to 98, through heavy offerings in both cases.

## PERSONALS.

Mrs. E. P. Green, has recovered from an attack of the grip at Canasraga, N. Y., by the use of Dr. Miles' Pain Pills.

Among the victims of the grip epidemic now so prevalent, F. Coyle is now recovering at Canton, O., by the use of Dr. Miles' Nerve and Pills.

W. E. Nibells, of St. Louis, Mo., who was down with grip, is reported much improved. He has used Dr. Miles' Nerve and Pills.

The friends of Mrs. L. Denison will be pleased to learn of her recovery from grip, at her home in Bay City, Mich., through the use of Miles' Nerve and Pills.

Everybody says that J. W. Udy is looking splendid since his recovery from the grip at his home in Des Moines, Iowa. They all know that Dr. Miles' Nerve was what cured him.

Prosecuting Attorney Charles L. DeWaele, who has passed the three-score mile stone, had a time with the grip; but when seen at his home in Roscommon, Mich., the other day, he said Dr. Miles' Nerve was what cured him.

At nearly three-score and ten, Mrs. Galen Humphrey was fighting against odds when the grip attacked her; but she took Dr. Miles' Nerve, and now her neighbors in Wareham, Mass., remark on how well she is looking.

After an illness of five weeks from the grip, Mrs. Harriet Jackson is again about and looking fine. She began taking Dr. Miles' Nerve after the fourth week. Her home is in Bowling Green, Mo.

**\$30.00 Chicago to California, Portland, Seattle, Tacoma and Puget Sound.**

Chicago Union Pacific and North-Western Line. Tickets on sale each Tuesday, February 12 to April 30. Shortest time enroute. Finest scenery. Daily tourist car excursions personally conducted semi-weekly. "Failing to find relief from the grip with old methods, I took Dr. Miles' Pain Pills, Nerve and Nerve and Liver Pills, and was permanently cured."—Gust. Eagan, Jackson, Mich.

"After suffering for two months from a severe attack of grip, I found quick relief and a lasting cure by using Dr. Miles' Nerve, Pain Pills and Heart Cure."—Harry Abbott, Cincinnati, O.

Read the "want" columns daily.

## THE NEWS BY WIRE

Ministers and Envoys Meet in Peking.

BRITISH LOSE HEAVILY.

Two Hundred Prisoners Taken by the Boers at Modderfontein—Well Known.

Bishop Dead—Two Murderers Escape From a West Virginia Jail—King Edward is Not Suffering From Cancer of the Throat.

PEKING, Feb. 6.—[By Associated Press]—The Chinese plenipotentiaries, Prince Ching and Li Hung Chang, had a protracted meeting with the foreign envoys. Twelve names of prominent Chinese officials were submitted, with the request that China keep faith with the powers and punish the persons named commensurately with their offenses. The Chinese plenipotentiaries replied that China's earnest purpose was to carry out fully the demands of the powers and she felt sure the punishment which would be inflicted would be satisfactory. It was discovered that two out of twelve persons named were already dead.

After a long conversation on the subject of punishment it was decided that the foreign envoys should draw up a full list of all accused officials, both national and provincial, with indictments specifying the guilt of each, and a statement of the punishment required, which would then be presented to the Chinese plenipotentiaries for definite action. Li Hung Chang, who is very weak from his recent illness, had to be carried in and out of the British legation. He is unable to walk, but his head seems as clear as ever.

The foreign envoys were impressed with the evident desire of both Prince Ching and Li Hung Chang to come to terms. Prince Ching asked whether, provided China showed by every means in her power a desire to carry out the terms of the joint note, the foreign troops would leave Peking. The foreign envoys replied that this was a subject they could not discuss beyond saying that, if everything were satisfactory, they believed the powers would begin to withdraw the troops early in the coming spring, but that this depended largely upon the Chinese themselves.

Later—The foreign ministers have demanded of the Chinese plenipotentiaries that twelve persons, named as leaders in the Boxer outrages, be condemned to death, including two already dead. The latter demand is made for moral effect. It is said that Prince Tuan and Duke Lan may have their sentences commuted to banishment to Turkestan.

## TWO HUNDRED PRISONERS.

British Loss Heavy at Modderfontein.

LONDON, Feb. 6.—[By Associated Press]—Details of the recent fight at Modderfontein are being received at the war office, and prove that the engagement was much more serious than first reports indicated. Two hundred British were taken prisoners, and thirty or forty were killed. A special dispatch from Cape Town says that General De Wet intends to annex various districts of Cape Colony and then to commandeer men and supplies, although he is now urging the colonists not to join him. It is reported that the Boers, commanded by Blake, are threatening Lorenzo Marques and that Portugal has requested British assistance. It is further asserted that a British squadron has been ordered to Lorenzo Marques.

## THE STORY DENIED.

King Edward is Not Suffering From Cancer of the Throat.

LONDON, Feb. 6.—[By Associated Press]—Prof. Sir Felix Semon, physician for diseases of the throat to the National hospital for epilepsy and paralysis, and president of the Laryngological Society, of London, etc., asked the Associated Press to say there is positively no word of truth in the story published in the United States that King Edward was suffering from cancer of the throat.

## JAIL DELIVERY.

Two Convicted Murderers Among Those who Escape.

HUNTINGTON, W. Va., Feb. 6.—[By Associated Press]—Seven prisoners broke out of the jail of Cabell county last night, including Pearl Newman, convicted of the murder of Actor McCauley, and Allan Higginbotham, charged with the murder of Mayor Dupriest, of Culloden.

## BISHOP WEAVER DEAD.

DAYTON, Feb. 6.—[By Associated Press]—The Rev. Johnathan Weaver, Bishop Emeritus of the United Brethren church, died this morning. His religious career began in 1841.

# THE NEW CARRIERS

Richard Edwards Given One of the Routes.

## PETITION AT BROOKFIELD.

Some of the People of That Village

Want the Postoffice Re-established—Newman Sees the Handwriting on the Wall and Acts Promptly—The Carrier a Traveling Postoffice.

Richard Edwards, the West Main street grocer, and substitute rural mail deliverer, has been appointed carrier for one of the two new routes which are to be instituted in this vicinity in the near future. The other carrier will be appointed this week. The three routes out of Massillon are to be numbered, that to the east and north being No. 3, that to the south and west No. 2, and that to the north and west No. 1. Special Agent Blackman, who went to Poland, O., to spend Sunday with his family, returned Monday, and in a few days will have completed all of the details connected with the recommendations he will make to the department. He is confident of the early institution of the two additional routes.

A petition is being circulated for signatures in West Brookfield, where mail is now delivered daily from the Massillon postoffice, which prays the government to reestablish a postoffice in that village. If the plans of the special agent are adopted the Newman postoffice will also shortly become a thing of the past. All Newman, with a great deal of the surrounding country, will be covered by a carrier. A protest by the friends of the postoffice has already been prepared for the department.

The proceeds of a village postoffice amount to very little when the territory in which it is located has a free mail system, for the carrier, so to speak, is a traveling postoffice. He carries about everything that can be secured at the village postoffice, and has authority to handle registered mail matter and to cancel stamps. Thus, if a person residing at the beginning of the route, desires to communicate with a person living at its end, she has but to mail her letter with the carrier, who cancels the stamp, postmarks the envelope and delivers it without being obliged to carry it first to the Massillon postoffice.

## FIGURES FROM THE CENSUS.

Twenty-two Ohio Counties have Decreased in Population.

The total land surface of Ohio is approximately 40,760 square miles, the average number of persons to the square mile in 1890 and 1900 respectively being 91.1 and 102. The population of Ohio is more than 91 times as large as it was 100 years ago. It is now 4,157,545. Twenty-two counties decreased in population between 1890 and 1900, viz.: Ashland, Brown, Carroll, Champaign, Clermont, Clinton, Darke, Delaware, Fayette, Hancock, Harrison, Holmes, Lawrence, Meigs, Morgan, Morrow, Noble, Shelby, Union, Vinton, Wayne and Wyandot. Ohio contains 709 incorporated places, of which 143 have a population of more than 2,000. Of these 143 there are 73 which have a population of less than 5,000; 48 have more than 5,000, but less than 10,000; 28 have more than 10,000, but less than 20,000; 3 have more than 20,000, but less than 25,000, and 9 have more than 25,000, namely, Cleveland, Cincinnati, Toledo, Columbus, Dayton, Youngstown, Akron, Springfield and Canton.

"Failing to find relief from the grip with old methods, I took Dr. Miles' Pain Pills, Nerve and Nerve and Liver Pills, and was permanently cured."—Gust. Eagan, Jackson, Mich.

# CATARRH

Catarrh has become such a common disease that a person entirely free from this disgusting complaint is seldom met with. It is customary to speak of Catarrh as nothing more serious than a bad cold, a simple inflammation of the nose and throat. It is, in fact, a complicated and very dangerous disease; if not at first, it very soon becomes so.

The blood is quickly contaminated by the foul secretions, and the poison through the general circulation is carried to all parts of the system.

Salves, washes and sprays are unsatisfactory and disappointing, because they do not reach the seat of the trouble. S. S. S. does. It cleanses the blood of the poison and eliminates from the system all catarrhal secretions, and thus cures thoroughly and permanently the worst cases.

Mr. P. H. McAllister, of Harrodsburg, Ky., writes: "Having been a terrible sufferer from Catarrh, and being now sound and well, the question often put to me is, 'What cured you?' In answer I feel it my duty to state that Swift's Specific is the medicine. I am such a true believer in the efficacy of Swift's Specific that I can honestly and conscientiously recommend it to any one suffering from Catarrh. Have recommended it to many, and am happy to say that those whom I have induced to use it can bear me out in the statement that it will cure any case of Catarrh if taken according to directions."

is the only purely vegetable blood purifier known, and the greatest of all blood medicines and tonics. If you have Catarrh don't wait until it becomes deep-seated and chronic, but begin at once the use of S. S. S., and send for our book on blood and skin diseases and write our physicians about your case.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

## THE DECAY OF ENGLAND.

What Rider Haggard, the Novelist, Thinks of It.

The growth of London and the consequent depletion of the rural parts of England have stung Mr. Rider Haggard to a point at which he can hold silence no longer. Appealed to by The East Anglian Daily Times to declare what he foresees will happen unless this exodus is greatly checked, he boldly asserts that even "these who run may read signs of our national decadence."

"What else, for instance," says he, "is the love of excitement that has become so universal? What the loud voiced boasting and the passion for exaggeration? What the contempt for that which is old fashioned and steady going and dull?"

Mr. Rider Haggard in consequence argues "that it should be pressed on governments that in the end it will profit them nothing if they gain the whole world and lose their own land, says the London Express. The gag of trade may fall. A few more strides, another 10 shillings on the price of coal, a little more foreign competition, and what will happen to his feet of clay? The magog of the new imperialism, that of the spread eagle variety, may prove unmanageable and no longer feed the maw of his brother, trade."

"But the home soil always remains," and to make it more attractive and more remunerative Mr. Haggard would encourage ownership, "the ownership not of the few, but of the many. That which men own," he contends, "they love. By that which they love they will hide, rearing families who will love it also." In short, given such ownership as is present to his mind, "the yeoman class which made England, but now is vanished, killed out in the condition of affairs created by the conquering trader class, would rise again to keep her great."

As a result Mr. Haggard believes, though this is mere guesswork, that a hundred millions (about the cost of a single South African war) would cover the total cost of experiment of peasant or yeoman proprietary made on a large scale and for a period of years. If governments can find money to settle soldiers in the Orange River Colony, why cannot they find it, he queries, to settle them upon the unpeopled fields in, let us say, the eastern counties? "Our interests in the Orange River Colony, with which we do a large trade in precious stones and other things, are great, but are not our interests in the English counties," he demands, "much greater?"

## REDWOOD RAILROAD TIES.

Native Mahogany and Ebony Also Used on a Mexican Road.

James D. Larmeson, formerly a resident of Austin, has arrived at that city from the isthmus of Tehuantepec, Mexico, where he has a coffee plantation. He is enthusiastic over the agricultural and industrial development that is now in progress in southeastern Mexico, says the New York Sun. He says that S. Pierson & Son, the English contractors who a few months ago leased the National Tehuantepec railroad from the Mexican government for 50 years, are expending a vast amount of money in rebuilding the line and making improvements.

"Some idea of the magnitude of the work of S. Pierson & Son may be had when it is stated that they have a force of more than 5,000 men employed on the railroad construction work and on the harbor improvement works at Coatzacoalcas and Salina Cruz," Mr. Larmeson continued. "They have work for more than 10,000 men, and their agents are scouring Mexico for laborers. The experiment of working Chinese is to be made in that part of Mexico, and the first lot of 1,000 Chinese are now on their way direct from China to work for this firm. The railroad is being rebuilt all the way from Coatzacoalcas, the Atlantic terminus, to Salina Cruz, the Pacific terminus. New 80 pound steel rails are being put down, and 20,000 redwood ties which were brought all the way from California are being placed under the heavy steel rails. There are also many native mahogany and ebony ties being used on the road."

## The Twentieth Century Girl.

She's snappy and smart as the hottest red pepper; In grace with the angels she's closely allied; In lightness no queen of the turf can outstep her; Or hold up a head with more beautiful pride. Her smile but reflects the bright spirit within her. Her lip has a proud "don't-tyon-jolly-me" curl; And, she's a saint or an innocent sinner, There's none like the twentieth century girl.

Her laugh flows as sweet as the ripple of streamlets; Her song would make the ear of an angel entrance; Her eyes are so soft that they seem little dream-lets; A challenge to love in their every glance. She's a queen of the realm of female perfection; In beauty's great domain she is the peer; There's scarcely a flaw that demands a correction Observed in the twentieth century girl.

In shirt, or boudoir, in the parlor or kitchen, She shines with the light of American grace; She's all we could ask in her figure and rich in Dame Fortune's best dower, her beauty of face. Her modesty sometimes seems tardy in action When dancing in gayety's maddening whirl, And then her cute boldness seems an attraction Quite fitting the twentieth century girl.

She has a quick tongue and a ripe brain to feed it, Discusses all questions from science to sport; You offer advice, and she's ready to heed it, Provided 'tis of an agreeable sort. In satire she gives her opponent no quarter; In love all her words have a sappy purr; In spats or in quarrels no flabid old Tartar Could silence the twentieth century girl.

Without her this earth would be but as the set of gold with the beautiful gem torn away, Its men folk but growing old animals, fretting In solitude's gloom for a twinkle of day. Then here's a hurrah for the sparkling young jewel! Mid all of earth's treasures the daintiest pearl, She sweetens our cup, she's the salt in life's meal, The peerless, chic twentieth century girl.

—Denver Post.

## NEW ROAD SCRAPER.

WELL ADAPTED TO THE REPAIR OF MACADAM ROADS.

Coverages the Road Thoroughly and Well, Saves Material and May Be Attached to Traction Engine or Steam Roller.

Probably no road paving is worse than a macadam road when it gets uneven and is in want of renovation. But the repair of a macadam road is both slow and expensive, necessitating the blocking of the thoroughfare for several days. Then, again, pedestrians incur considerable risk by flying pieces of stone which cannot possibly be avoided by the hand picking process. A new scarifier described by The Scientific American may be attached to a traction engine or steam roller. The scarifier is attached to the back end of the tender of the roller in such a manner that the weight and strain in connection with the same are equally distributed over the full width of the tender. The latter is constructed of extra thickness and strength, so that there is no possibility of the roller itself being pulled to pieces through the vibrations of the scarifier.

The scarifier itself works on a traveling motion. By this means it can be set to scarify any part of the road, from the gutter on either side to the crown, without having to turn the engine round. Then, again, it can be arranged to operate either backward or forward, and the depth of the cut into

SCARIFIER FOR MACADAM ROADS.

the road can be easily regulated by means of a hand wheel and worm gear. Under ordinary circumstances it will score the road to a depth of about two or three inches, but of course this depends upon the nature of the road upon which the scarifier is at work.

The scarifier consists of a dozen chisels mounted in a swinging frame pivoted at its upper extremity and carrying two segments of worm wheels gearing into two worms. The tools are rigidly held in position in the frame by means of wedges, so that there is no possibility of their working loose while at work. They can easily and readily be withdrawn when required for sharpening or replacement. One set of chisels is intended for forward work and the other set for working backward. A lever actuates in a slotted sector for the purpose of changing the work from the forward to the backward motion and vice versa.

When the roller has completed its work, the scarifier may be lifted from the ground to any desired height by means of the hand wheel and worm gear. This arrangement of gear is self locking in any position.

By working with one of these scarifiers a macadam road may be scored in a very short time, and it performs the work much more thoroughly than the hand pick, while there is also a considerable saving of material. The picking of a road is very destructive to the metal, but by means of this scarifier it is simply turned up regularly and often only requires leveling and rolling in again. Then, again, the surface of the road is disturbed to a uniform depth throughout the whole section, which desideratum it is impossible to obtain by means of the hand pick.

## Cellulith.

Some particulars of cellulith are given in La Revue de Produits Chimiques and reproduced in the Philadelphia Times. It is well known that in the making of paper a continuous beating of the pulp produces a transparent and elastic mixture which hardens on drying and greatly strengthens the paper. The cellulith is prepared by a process exclusively mechanical, the beating of the pulp for a much longer time than is necessary in the production of mere paper. According to the properties of the pulp and the rate of revolution of the cylinder, the operation may last from 40 to 120 hours or until there is a homogeneous mass having no trace of fiber. The air in the substance is removed by beating for two more hours. If allowed to remain, it might destroy the regularity of the material. If desired, suitable colors are added, and then the substance is heated, the hot cellulose liquor passing into a vessel having a perforated bottom, through which it drips, containing 60 per cent of water, the material has the consistency of thick honey. The water is evaporated either by natural or artificial heat, and the pulp hardens, gradually attaining the consistency of horn, its specific gravity being about 4.5. The cellulith may be worked as horn or ebony. Combined with sawdust and 30 per cent lampblack the result is a kind of dark ebony. This is dense and may be polished.

A very simple procedure will remove moles without having recourse to the knife. Shave a match or silver to as fine a point as possible, dip in carbolic acid and lightly touch the mole, care being taken to prevent the acid touching any other portion of the skin. Apply this every three or four days, and the mole will gradually disappear, leaving its space clean and healthy.

Commercial Plants.

The number of plants known to commerce is placed at 4,200, and of these 420 are applied to the making of perfumes.

## AHEAD ON APPLES.

An Idea of the Past Quantity Shipped in This Country.

It is an established fact that the United States now holds the record for rapid development of fruit industries, such as the growing of oranges and lemons, peaches and grapes. As a nation we eat more fruit than any other and grow considerably more than we eat. Eighty millions of dollars a year is the figure for strawberries alone. A hundred millions would scarcely cover the value of all the grapes marketed. Peaches we raise in astonishing quantities in orchards containing as many as 300,000 trees, but our banner crop so far as fruit is concerned is apples. We have produced as many as 210,000,000 barrels in a single season and have sold as high as 3,000,000 barrels in England alone. We carry in cold storage every winter anywhere from 6,000,000 to 10,000,000 barrels of the crop of the season before in order to secure better prices. Ships weigh anchor in New York three at a time in a single week bearing apples to Europe. Indeed it is one of the greatest industries the country has ever witnessed and promises to take rank as the chief fruit crop of the world, says a writer in Pearson's.

Mills country and indeed all the southwestern section of Iowa is truly a wonderful apple country, but not much more important than one of a score of regions in various parts of the country which produce apples. In that country alone there are over 9,000,000 trees, averaging at the lowest ten bushels a tree per annum. One hundred and fifty thousand of these trees are in one orchard. The total output is close on to 3,000,000 barrels, or enough to supply the present American sale to England.

New York, however, has two counties much smaller than Mills which do even better than this, and as a state it raises three times as many apples as Iowa. The counties referred to are Niagara and Orleans. In the western tier, which together raise 7,000,000 barrels of the best kind of market apples. All through this area are orchards holding 20,000, 30,000, 40,000 and occasionally 100,000 trees, which in blossoming make of the roadside a paradise.

## Tallest of Living Men.

The biggest living man is Lewis Wilkins, who is now arousing great interest in the scientific circles of Europe. Wilkins was born on a farm near St. Paul in 1874. When he was but 16 years old, he measured six feet in height and now has grown to the tremendous height of 107 1/4 inches—just three-quarters of an inch less than nine feet—and weighs 364 pounds.

There have been other tall men and women before Wilkins, and scientists have striven in vain to account for these freaks of nature. Only lately a plausible story has been put forward by a French physician, Dr. Marie, who says that gigantism is nothing more or less than a disease. This disease generally occurs in patients between the ages of 18 and 35 and is first called acromegaly from two Greek words meaning "enlargement of the extremities." If the patient is not attacked until after he is 18, the ends of the bones in the arms and legs are enlarged and prolonged slightly, but if the disease has attacked a child at or soon after birth gigantism is the result. The bones are prolonged all along their length, grow unnaturally, and the result is a giant.

When you see a big man, it is therefore a question whether he is unusually strong or whether he is a sufferer from acromegaly. All giants have not been acromegalic, according to Dr. Marie. He mentions two giants in the French army who did not belong to this class. One was Charles Freut, a cavalry soldier, who was 6 feet 11 inches, and another was Marnat, a drum major in the Nineteenth regiment of infantry, who measured 6 feet 9 inches.

Perhaps the greatest giant who ever lived before Wilkins was Charles Byrne, an Irishman. He measured 9 feet 2 inches. His skeleton is still preserved, proving beyond question his enormous size. He was probably acromegalic.

Other giants were Constantine, born at Zurich, Switzerland, 8 feet 1 inch; Herold, born at Leipzig, 7 feet 5 inches, and Lady Emma, 8 feet 1 inch.—Golden Penny.

## Complaints of Russian Wheat.

Vice Consul General Hamauer of Frankfurt writes to the state department: "The Berlin Association of Grain and Provision Dealers publishes a warning to its members against grain importations from southern Russia, saying it has received reliable information that Russian exporters in Odessa and Nikolajew (ports of the Black sea) have of late revived the fraudulent practice, prevalent there in former years, of mixing sand, mud and worthless grains with their shipments of wheat and barley destined for abroad." The association is now considering what steps to take to effectually stop this fraud."

## Soap Saving Device.

A Beaver Falls (Pa.) inventor has invented an apparatus for saving soap at the wash basin. The soap is forced on to the forked ends of a pivoted rod. When it is desired to use the soap, the rod is bent down into the water, and when released it will fly back to its position, thus preventing the waste of soap that comes from carelessly leaving the bar in the basin.

## Japanese Immigrants.

Minister Buck of Tokyo reports to the state department that the Japanese government on Aug. 2 issued instructions to the governors of the various provinces to permit no further emigration of Japanese subjects to the United States and Canada for the present.

## The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to attack the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root, the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Birmingham, N. Y., and mention this paper.

# THE INDEPENDENT.

THE INDEPENDENT COMPANY,

INDEPENDENT BUILDING,  
30 N. Erie Street, - MASSILLON, O.

WEEKLY FOUNDED IN 1884.  
DAILY FOUNDED IN 1907.  
SEMI-WEEKLY FOUNDED IN 1886.

THE EVENING INDEPENDENT IS ON  
SAL at Babcock's Book Store, Ham-  
mel's Cigar Stand (Hotel Conrad),  
and Bert Hankin's News stand in  
North Mill street.

THURSDAY, FEBRUARY 7, 1901

The candidacy for a third term of the Hon. S. M. Jones, of Toledo, appears to be definitely settled, as well as the fact that he will be endorsed by the Democrats. It is the opinion of those in touch with Toledo's municipal situation that Jones will be defeated if the right man is nominated by the Republicans.

According to the definite promises of the Canton-Massillon Electric Railway Company and the Barberton, Doylestown & Massillon Electric Railway Company, work on the roads to Navarre and Doylestown respectively is to be begun as soon as the weather will permit. The INDEPENDENT, together with Massillon citizens generally, will watch for the opening of spring with unusual interest.

The Canton city council has voted favorably on the proposition to donate \$3,000 asked for by the Aultman hospital trustees and, according to an amendment to the resolution granting the money, all the city employees who become sick or disabled while in the discharge of public duty will in future receive hospital treatment free. Canton realizes that it pays to contribute liberally toward the support of a valuable public institution and it is now in a position to realize handsomely on its recently authorized donation.

The Philippine commission has decided, tentatively at least, one of the most difficult questions it has had to deal with, that of religious instruction in the public schools. A proposition to permit ministers or priests to give religious instruction in the schools outside of school hours, for a limited time each week, was rejected, and the commission voted not to permit religious instruction at all, whether in or out of school hours. While this decision may be disappointing to the ecclesiastical element in the islands, it is possible that that so definite a policy will work better in the end than any compromise would have done. It will serve to placate Filipino sentiment and is in harmony with American principles.

A prominent Cleveland Democrat whose remarks are quoted in the Ohio State Journal fails to view the political future of his party in the state through rose-colored spectacles. "I see that both Tom L. Johnson and John R. McLean are talking about carrying the legislature for senator," he says. "I am a Democrat, and believe I can see a chance as far as any man, but for the life of me I do not see where the hope of doing any such thing can be discerned. The state went for Nash in 1899 by 60,000 in round numbers, and in November for McKinley by 70,000 in round numbers, and still some people talk about the Democrats carrying the legislature and defeating Forsaker. I wish they would show me how they expect to do it. I do not believe there is one chance in a thousand for the Democrats to carry the assembly."

So far as is known the Cuban convention has not discussed the question of future relations with the United States, and there is no proposition pending looking to a declaration on this point. That body has not yet completed its work, however, and it is possible that this branch of the subject may yet be considered and discussed in accordance with General Wood's order in calling it together. Expressions of opinion from lawyers in the Senate and House are to the effect that the time is not yet ripe for Congress to take action with regard to the future political status of Cuba, and that they prefer to leave the question in abeyance, at least until the Cuban people make known what attitude they think the United States government should assume towards the government of Cuba. In the meantime, the United States will maintain the control it now exercises.

In the January number of the Great Round World, Dr. A. D. Williams, who served for a time as a contract army surgeon in Puerto Rico, had an article on the starvation of the inhabitants of the island. Among other things, Dr. Williams said that "hundreds of Puerto Ricans are dying of starvation." This statement turns out to have been, like many others made in this connection, an amazing exaggeration. Dr. Williams F. Smith, secretary and treasurer of the superior board of health of Puerto Rico, has addressed a letter to the editor of the magazine referred to, in which he replies to Dr. Williams. In part Dr. Smith says:

"It is true that poverty and distress exist today in Puerto Rico, but this has

always been the case, and must be until the economic conditions of the island are placed on a better footing than heretofore. Dr. Williams' assertion that 'hundreds are dying of starvation' is so extraordinary that I can only say that I give it the most emphatic contradiction, and I make this statement based on a long experience in public and private work in all parts of the island. Moreover, I assert positively that any death from starvation in Puerto Rico today is a case of suicide."

The destination of the articles of American manufacture, and especially of our machinery, is literally to every port of the world. Figures representing our export trade for the year 1900 show that our sewing machines, typewriters and scientific instruments go to Asia, Africa and to the islands of Oceania; and, what is more remarkable, they go to experienced Europe with all her facilities for manufacturing and her skilled workmen. Of the \$6,738,000 worth of instruments for scientific purposes, including telephone and telegraph instruments, over one million dollars' worth went to the United Kingdom alone, nearly a million dollars' worth to France and a half million dollars' worth to Germany. The United Kingdom and Germany each take over a million dollars' worth of our sewing machines out of a total exportation of \$4,500,000 worth. Over a million dollars' worth of typewriters actually went to the United Kingdom and a half million dollars' worth to Germany. Of the total exportations of builders' hardware, amounting in value to \$9,783,402, over two million dollars' worth went to the United Kingdom, nearly a million dollars' worth to Germany, and about half a million dollars' worth to France, and another million dollars' worth to other European countries. Of the \$10,895,416 worth of steel rails exported in 1900, a million dollars' worth went to Europe and nearly four million dollars' worth to British North America.

## OUR COUNTRY CORRESPONDENTS.

The Philadelphia Record says: "The head of a large Market street wholesale business house, a man now advanced in years, has been a regular subscriber to one of the Bucks county papers for fifty years. 'He wouldn't give it up for anything,' said this man's son yesterday. 'He gets more real enjoyment from it than from anything he reads. A daily edition has been started, but he doesn't want that. He only gets the weekly edition, which prints gossip of a personal nature from the various towns throughout the county. He will pore over this by the hour, and his comments on the various items of news are often amusing. Scarcely a name is mentioned that he doesn't say: 'Why, I used to go to school with his father,' or 'I once licked my Uncle Jim for tying my clothes when we used to go swimming in the Neshaminy.'"

"Gossip from the various towns around the county." This is what the old subscriber wants as well as the new subscriber with county interests. By "gossip," of course, is meant truthful items concerning the goings and comings of neighbors, the births, marriages and deaths of each community, notes about exchanges of property, farm work, coal mining, church meetings and social gatherings. This is the sort of gossip which is furnished to THE INDEPENDENT every week by a band of faithful country correspondents, whose printed communications form one of the most useful and interesting departments of the paper.

## TO CURE THE GRIP.

### Advice of a Famous Physician.

First and foremost, REST. Take care of yourself. Your already weakened nerves want rest, and must have it. If the attack is severe, go to bed and remain there. More fatalities result from neglect of this precaution than from any other cause.

Eat sparingly. Your digestive organs are in no condition to take care of large quantities of food.

Drink plenty of pure, cold water. It allays the fever, stimulates the kidneys to action and opens up the pores of the skin. Keep the bowels open with Dr. Miles' Nerve and Liver Pills.

Take three doses of Dr. Miles' Nerve per day, and if you cannot sleep take an extra dose at bed time. To further control the fever, and to overcome the peculiar aches and pains of grip, use Dr. Miles' Pain Pills. They act quickly and effectually, and no bad effects result from their use. These remedies have been thoroughly tested more than a million times, and their efficiency is thoroughly established. They never fail to give relief.

Dr. Miles' Remedies can be found at any drug store, and they are sold on a positive guarantee that first bottle or package benefits or money refunded.

For the weakness and prostration following grippe there is nothing so prompt and effective as One Minute Cough Cure. This preparation is highly endorsed as an unfailing remedy for all throat and lung troubles and its early use prevents consumption. It was made to cure quickly. Chas. W. Cupples, 139 W. Tremont St., Rider & Snyder, 12 East Main St.

"When the grip left me my nerves and heart were badly affected; but I began taking Dr. Miles' Nerve and Heart Cure and was soon all right."—Wm. Roericht, Eau Claire, Wis.

# WAS A GREAT ADD.

Then the Council Found They Were Agreed.

## THE B. D. & M. RAILWAY.

The Manager Secured the Adoption of a Resolution Extending the Time Limit of Its Franchise—Says the Road Will Be Built Before September—Other Notes of the Meeting.

All members of the city council, except Mr. Howard, were present at the Monday evening meeting.

A. E. Townsend, manager of the Barberton, Doylestown & Massillon electric railway, whose franchise expired some time ago, appeared to say that he was now prepared to build the road, having succeeded in interesting Eastern capitalists, and, at his suggestion, the following resolution was adopted unanimously:

"That the time for the completion of the street railway, permission to construct and operate the same on certain streets, which was granted to the Barberton, Doylestown & Massillon Electric Railway Company by ordinance on the 14th day of March, 1900, is hereby extended to the 30th day of September, 1901, and that the terms and conditions of said ordinance in relation to the time of construction is hereby modified and changed according to said date."

Mr. Townsend was accompanied by G. B. Hancock, of Philadelphia, whom he introduced as the representative of the capitalists who will finance his project. Mr. Townsend said that he expected to begin work on the road as soon as the weather would permit, and that the line would be completed within four months thereafter, which statement prompted Mr. Kouth to remark: "I'll give you one hundred of the best ten-cent cigars you ever smoked if you have your road built by fall."

"Well," replied Mr. Townsend, "I'm a great smoker, and I assure you I'll enjoy the cigars."

Though the vote showed that all members were in favor of granting the company another chance to fulfill its agreement, the discussions that preceded the roll call were, as a slangy young man in the lobby expressed it, "something fierce." Solicitor Young dilated at some length on the advantages and benefits that would be the city's through the building of this line, incidentally remarking that no opposition had been shown the Canton-Massillon Electric Railway Company in its pleas for concessions, it being notorious that the officers of the company seemed to hypnotize the council with their mere presence and could secure anything wanted.

Mr. Kouth waxed wroth as the solicitor proceeded, and at his conclusion his angry tongue found words such as had never before been heard in the council chamber. He ended his speech with the suggestion that the solicitor should be subjected to a severe chastisement as proof of the council's resentment of his statement that there had been nothing but passiveness toward the Canton-Massillon Electric Railway Company in considering its many broken promises. When he inquired why the solicitor was so interested in the matter, that officer admitted that he had previously talked with Mr. Townsend, and that it was he who wrote the resolution whose adoption Mr. Townsend desired.

"And I expect you," continued the solicitor, addressing Mr. Kouth, "to be as courteous to me as I am to you, and I do not want any insinuations cast."

Then followed talk by everybody, and finally the vote was taken. They were surprised to learn that they were agreed on the matter.

### MR. KOUTH'S REPORT.

Chairman Kouth, of the committee on fire department, reported that the new combination engine and hose wagon had arrived from the works of the Holloway Company, at Baltimore, and that it was perfectly satisfactory, in some respects being superior to specifications. "Everybody who has seen the machine says it's all right," remarked Mr. Kouth, "except one young business man, who said he couldn't understand why the city should pay \$1,800 for a machine such as could be made in Dalton for \$100. Now, I want to say that I have a little mule at the mine that never kicked in its life, but if that young business man had made that remark to that mule he would have kicked his head off for being so dumb."

The clerk asked if the committee meant Mr. Kouth's remarks as its report. Mr. Kouth said it did. Mr. Johns, however, insisted on a written report, and Mr. Kouth promised to have one prepared.

There is always danger in using counterfeits of DeWitt's Witch Hazel Salve. The original is a safe and certain cure for piles. It is a soothing and healing salve for sores and all skin diseases. Chas. W. Cupples, 139 W. Tremont street; Rider & Snyder, 12 E. Main street.

"When I was prostrated with grip and my heart and nerves were in bad shape, Dr. Miles' Heart Cure gave me new life and health."—Mrs. Geo. Collie, Elgin, Ill.

A powerful engine cannot be run with a weak boiler, and we can't keep up the strain of an active life with a weak stomach; neither can we stop the human machine to make repairs. If the stomach cannot digest enough food to keep the body strong, such a preparation as Kodol Dyspepsia Cure should be used. It digests what you eat and simply can't help but do you good. Chas. W. Cupples, 139 W. Tremont street; Rider & Snyder, 12 E. Main street.

## BUSINESS FOR C. L. & W.

Will Mail One Hundred Cans of Coke Daily.

WHEELING, Feb. 6.—A contract has been closed between the Baltimore & Ohio and Cleveland, Lorain & Wheeling railways by which the latter accepts from the former 100 cars of West Virginia coke at this point daily for delivery to the Johnson Steel Company, of Lorain, O. The Baltimore & Ohio has heretofore carried this coke over its own line, but finds the new plan more profitable.

# IT WAS HIS FATE.

Saved From Drowning, Pneumonia Set In,

AND RESULT WAS FATAL.

Sad and Peculiar Circumstances in Connection With the Death of James Woddy—Jacob Mook, a Well Known Dealer in Sand, Passes Away.

It was fate that James Woddy, son of Mr. and Mrs. Ernest Woddy, a brief notice of whose death appeared Monday, should die as the result of a fall into the Tuscarawas river. Though rescued from a watery grave, the child could not be rescued from the fatal pneumonia which followed. The boy broke through the ice while playing with other children in the vicinity of his parents' home. Funeral services will be held at the residence, at 79 Clay street, at 2 o'clock Wednesday afternoon. The child was 5 years old.

### JACOB MOOK.

CRYSTAL SPRING, Feb. 5.—Jacob Mook, aged 85 years, passed away Monday morning at 11 o'clock, death being due to asthma, with which he had been a sufferer for about three years. He lived on his farm one mile from here, almost his entire life. Mr. Mook is survived by seven children, thirty-four grandchildren and eight great-grandchildren. The children are Jacob J., of East Greenville; John M., of Canal Fulton; Henry, of Richville; P. E., of Canton; Mrs. Charles Shilling and Mrs. Adam Yochheim, of Crystal Spring, and Mrs. Philip Essinger, of Newcastle, Pa.

Mr. Mook was born in Neideroderbach, Bavaria, Germany. He immigrated to this country in 1851, coming direct to Stark county. He worked at his trade of shoemaker in Canal Fulton for a time, and afterwards bought the farm on which he lived the remainder of his life. Mr. Mook dealt extensively in a building sand, which he produced on his property. In the carrying on of this trade Mr. Mook formed acquaintances all over the state. He was particularly well known in this county. Funeral services will be held at the residence at 9 o'clock and at St. John's Evangelical church, in Massillon, at 10:30 o'clock Thursday morning.

### JAMES WODDY.

James Woddy, the 5-year-old son of Mr. and Mrs. Ernest Woddy, of 79 Clay street, died Sunday night of pneumonia. The funeral will be held from the residence Wednesday afternoon at 2 o'clock. The Rev. J. I. Wilson, of the First M. E. church, will conduct the services.

### HERBERT DAVIS.

Herbert, the three weeks-old son of Mr. and Mrs. John Davis, of East Greenville, died Sunday evening of lung fever. The funeral will be held from the house Tuesday afternoon at 2 o'clock. Interment will be made in the East Greenville cemetery.

### MRS. M. M. HELWICK.

BOLIVAR, Feb. 6.—Mrs. M. M. Helwick died at her home north of Bolivar on Friday, Feb. 1. Her loss is keenly felt in this village.

### MRS. JAMES HICKMAN.

BOLIVAR, Feb. 6.—Mrs. James Hickman died at her home north of Bolivar on Friday, Feb. 1. Her loss is keenly felt in this village.

### C. H. SULLIVAN.

A message has been received in the city announcing the sudden death of C. H. Sullivan, of Columbus. He was a brother of J. J. Sullivan, of Cleveland, and is well known in this city.

### CORVEN MOSSOP.

DALTON, Feb. 6.—Corven Mossop, aged 31, died at his home in this place on Tuesday evening, after an illness of several months with a complication of diseases. He leaves a wife and three children. The funeral will take place on Friday at 1 p. m. The burial will be at North Lawrence, where the Old Fellows and Knights of Pythias, of which organizations the deceased was a member, will have charge of the services. Mr. Mossop conducted a saloon at Dalton. He was a son of John Mossop, of North Lawrence.

### MR. HENRY BOSE.

BEACH CITY, Feb. 6.—Funeral services for the late Mrs. Henry Bose, whose death occurred Thursday evening, were held here Sunday. The pall-bearers were A. A. Hay, Michael Hass, William Hass, George Exline, Isaac Ax and Geo. Kaylor. Mrs. Bose was 50 years old, and leaves a husband and family. Death came suddenly. Apoplexy was the cause.

Reports show a greatly increased death rate from throat and lung troubles, due to the prevalence of croup, pneumonia and grip. We advise the use of One Minute Cough Cure in all of these difficulties. It is the only harmless remedy that gives immediate results. Children like it. Chas. W. Cupples, 139 W. Tremont street; Rider & Snyder, 12 E. Main street.

It is significant that in homes of wealth where the very best is demanded, Ivory Soap is used in the nursery. At the same time, in hundreds of families where economy decides the choice, Ivory Soap is selected. Thus its purity attracts the rich; its economy attracts the poor. High quality and low cost: is there any better combination?

## A NEW COUNTY.

Alliance People are Again Agitating the Question.

A movement to establish a new county in Ohio is under way. It is proposed to make Alliance the county seat. A number of prominent citizens have already met and discussed the important question. This meeting was held in the mayor's office. A similar proposition has been considered several times in former years, but owing to the difficulties besetting its path, the matter has been abandoned. It is now planned to lay out a section including the eastern end of Stark, the western portion of Columbiana and Mahoning and a slice from southern Portage county.

It is proposed to include in the new county, Salem, Sebring, Danamarcus, Garfield, Bolivar, Westville, Homeworth, Freeburg, Maximo, Marlboro, Deerfield and intermediate towns. Some citizens are already suggesting that the county be called Alliance county. Others mention that it be called McKinley. The law requires that a new county shall contain no less than 100 square miles of ground and must not reduce the area of any adjoining county to less than 100 square miles. The first step will be to procure a petition signed by the majority of land owners and legal voters of the entire section to be made into a new county. When the petition is granted, the question must be placed before the electors in all the counties to be reduced in size. A majority vote will carry the question.—Alliance Review.

### Education in Porto Rico.

The expense of maintaining schools in Porto Rico is very high, if we consider the amount spent for the small number of pupils enrolled; but as that country is gradually brought in closer touch with our own, their system will evidently be changed, until it reaches our present state of perfection. In this country the people are being educated to the fact that there is a sure cure for dyspepsia, indigestion, consumption, liver and kidney troubles, and that medicine is Hostetter's Stomach Bitters. It should be taken at the very first symptom, if you would avoid unnecessary suffering. It will give prompt relief and eventually cure, as hundreds of people, including many prominent physicians, have testified during the past fifty years.

### Every Movement Hurts.

When you have rheumatism. Muscles feel stiff and sore and joints are painful. It does not pay to suffer long from this disease when it may be cured so promptly and perfectly by Hood's Sarsaparilla. This medicine goes right to the spot, neutralizes the acidity of the blood, which causes rheumatism, and puts an end to the pain and stiffness.

### Biliousness is cured by Hood's Pills.

We give no rewards. An offer of this kind is the meanest of deceptions. Test the curative powers of Ely's Cream Balm for the cure of catarrh, hay fever and cold in the head and you are sure to continue the treatment. Relief is immediate and a cure follows. It is not drying, does not produce sneezing. It soothes and heals the membrane. Price 50 cents at druggists or by mail. Ely Brothers, 56 Warren street, New York.

### To be Prepared.

For war is the surest way for this nation to maintain peace. That is the opinion of the wisest statesmen. It is equally true that to be prepared for spring is the best way to avoid the peculiar dangers of the season. This is a lesson multitudes are learning, and at this time, when the blood is sure to be loaded with impurities and to be weak and sluggish, the millions begin to take Hood's Sarsaparilla, which purifies, enriches and vitalizes the blood, expels all disease germs, creates a good appetite, gives strength and energy and puts the whole system in a healthy condition, preventing pneumonia, fevers and other dangerous diseases which are liable to attack a weakened system.

"Grip robbed me of my sleep and I was nearly crazed with neuralgia and headache. Dr. Miles' Pain Pills and Nerve Cure me."—Mrs. Pearl Bush, Holland, Mich.

Come to THE INDEPENDENT office for your job printing

## FARMERS' INSTITUTE.

Interesting Programme for Meeting at New Berlin, Feb. 13-14.

The fifth annual farmers' institute, under the state board of agriculture, will be held in Sponseller's hall, New Berlin, on Wednesday and Thursday, February 13 and 14. The programme will be as follows:

Wednesday, 9 a. m. (sun time)—Music; prayer; opening address by the president; "Feeds and Feeding," by H. P. Miller, of Sunbury, O.; "The Potato Crop," by F. L. Allen, of Kinsman; discussion, led by E. E. Sharr; appointing committees.

Wednesday, 1 p. m.—"Some Profitable Investments," F. L. Allen; recitation, Miss Phoebe Mathie; solo, Mrs. Ed. C. Miller; "The Farmer's Table," illustrated; recitation, Mrs. Ira E. Sheets.

Wednesday, 7 p. m.—"Education of Farmers' Children," H. P. Miller; recitation, Miss Pearl Schranz; "The Farmer Boy," Chas. Krichbaum, of Canton; "The Farmer, Past, Present and Future," F. L. Allen.

Thursday, 9 a. m.—"Saving and Applying Manures," F. L. Allen; discussion, led by E. E. Mathie; "Care and Management of the Dairy Cow," J. F. Hickman, of Wooster; recitation, Mrs. Frank Wise; "The Care of a Team," H. P. Miller.

Thursday, 1 p. m.—"Employing Help on the Farm," H. P. Miller; discussion, led by L. A. Stoner; "What is the Agricultural Station Doing for the Farmer?" J. F. Hickman; recitation, Mrs. Isaac R. Stoner; "Farm Improvements," F. L. Allen.

### Music by the New Berlin band.

## SHANESVILLE BANK ROBBERS.

One of the Men Captured Has Made a Confession.

The man who calls himself John Day, arrested with two companions on suspicion at Bridgeport, and held for the Shanessville bank robbery, has made a confession. He admits that he had a hand in the robbery. He will be used as a witness against his two pals who are in jail at New Philadelphia. Day is the man who was arrested before he left the C. L. & W. train at Bridgeport. He put up a desperate fight, and came near shooting the Bridgeport marshal. When searched it was found that he had two big Colt revolvers on his person. He also had \$3,000 in bills sewed in his undershirt, and had a coin sack with 581 pennies in it. The sack was identified by Banker Doerschuk as having been taken from his bank in Shanessville. The state has a clear case against Day, or he never would have confessed. Haley and Fitzgerald, who were captured about the same time Day was arrested, and were a part of the gang that went from Holloway to Bridgeport on the C. L. & W. train together, came into court and announced that they would stand trial. They also informed the court that they waived the appointment of counsel to defend them, as they had means to hire lawyers for themselves.—Urichville Chronicle.

"My stomach was affected by grip and I could eat nothing but crackers and milk. I began taking Dr. Miles' Nerve and Pain Pills and the trouble disappeared."—Mrs. J. Lindsey, Montrose, Mich.

DAVID CITY, Neb., April 1, 1900: Genesee Pure Food Co., Be Roy, N. Y.: Gentlemen:—I must say in regard to GRAIN-O that there is nothing better or healthier. We have used it for years. My brother was a great coffee drinker. He was taken sick and the doctor said coffee was the cause of it, and told us to use GRAIN-O. We got a package but did not like it at first, but now would not be without it. My brother has been well ever since we started to use it.

Yours truly, LILLIE SOCHON.

"I had been in bed three weeks with grip when my husband brought me Dr. Miles' Nerve, Pain Pills and Nerve and Liver Pills. I was cured."—Mrs. J. Reiner, Franklin, Ind.

Salt rheum, with its burning, stinging sensation, is due to poor blood and is cured by Hood's Sarsaparilla, the great blood purifier.

## LOCAL HAPPENINGS.

**Discovered this Week by Independent Investigation.**

Born, to Mr. and Mrs. Richard Aston, a daughter.

Born, to the Rev. and Mrs. J. C. Ford, in Albright street, a daughter.

Miss Flora Hurler, of Canal Fulton, is the guest of relatives in the city.

Mr. and Mrs. Henry Porter, of Canal Fulton, are visiting Massillon relatives.

A daughter has been born to Mr. and Mrs. George Tucker, in East South street.

Albert Roderick left this morning for Kansas, where he will reside in the future.

Miss Lillian Wade gave a progressive euchre party at her home, south of the city, Monday evening.

Miss Alice Border, of Canal Dover, is a guest at the residence of Mr. and Mrs. James Wagoner, in Water street.

The local bartenders' union is arranging for a smoker to be held in the Trades and Labor Assembly hall next Sunday afternoon.

Conductor John Milan, of the C., L. & W. yard crew, is off duty on account of illness. His duties are being attended to by W. M. Keister, of Lorain.

Jack Lane, of Orrville, was arrested in Cherry street Monday night. He was intoxicated. In his pocket the officers found \$100. Tuesday morning the mayor fined him \$1 and costs.

William Hawk has resigned his position with C. L. McLain & Company to accept a situation as traveling salesman with C. F. Newbold & Company, wholesale candy dealers, of Canton.

The blast furnaces of the Lorain Steel Company have resumed operations after an idleness of over six months. The entire plant of the company is now being worked to its full capacity, giving employment to 3,500 men.

Akron's council has donated \$5,000 to the city hospital, and efforts are being made to secure enough more to wipe out a debt of \$15,000. As soon as this indebtedness is cleared up, O. C. Barber will give the institution \$100,000.

Conductor Emerson, of Alliance, while at the M. & C. junction of the Pennsylvania railway Monday morning, fell from an ice covered car and dislocated his left shoulder. Dr. Gans gave him attention, and he was then removed to Alliance.

Business on the C., L. & W. is picking up. Coke for the steel company is arriving daily, making about four trains extra each day. This will be increased soon. Limestone will also begin to come in, and the road will assume its usual activity.—Lorain Herald.

Mrs. Jacob Yochum and her son William, aged 50 and 19, respectively, committed suicide at Fostoria, Friday night, by taking strychnine. Poverty and the fact that the son was suffering from an incurable disease are supposed to have caused the double tragedy.

Frank Kracker, residing in Water street, sustained a sprain to one of his ankles that surgeons say is almost as bad as a fracture. He fell while walking in the vicinity of his home Sunday evening. Kracker is employed as a bartender at J. R. Geis's saloon.

Mayor Woodford conferred with Manager Woodford, of the C., L. & W. Railway Company, in regard to his union station idea. Like Mr. Blickensderfer, of the W. & L. E. Mr. Woodford was impressed with the plan, and promised to give it his attention in the near future.

The Rev. S. K. Mahon, of the Wesley M. E. church, Monday left for Spencer, where he will assist the Rev. Charles Miller in conducting a series of revival meetings. The Rev. Mr. Miller assisted in the recent revival at the Wesley church, which resulted in forty-three conversions.

Five young girls appeared before Mayor Glitsch, of Lorain, Monday, all charged with intoxication. The girls, some of whom wore short dresses, had attended a dance and were given what they supposed was pop to drink. They became very drunk and, going upon the street, were arrested.

Dr. Culbertson was Monday morning called to the W. & L. E. yards to attend William Strobel, a bridge carpenter, who fell from the slippery roof of a round house to the ground, a distance of eighteen feet, fracturing his left arm. Strobel this afternoon will go to Oak Harbor, where he resides.

Joseph Hilt left today for Whittier, Cal., where he will join his family, who have been in that city for several weeks past, and which will henceforth be their place of residence. Mrs. Hilt is a daughter of Mr. and Mrs. M. King, of Whittier, formerly of this city. Mr. Hilt has been employed in the business place of S. F. Weller for several years past.

William Noble, who was indicted by the grand jury at Norwalk for obtaining a signature by false pretense, pleaded guilty to the charge, and Tuesday afternoon was sentenced to the penitentiary for one year. Noble's offense consisted of obtaining Jenkins & Stryker's signature to a check for a horse which he sold to them, and which it turned out was mortgaged.

Funeral services for the late Mrs. Mary E. King were conducted at the East Oak street residence of Charles G. King, son of the deceased, Sunday afternoon, the Rev. Cyrus B. Fockler, of Canton, officiating. The pallbearers were Aaron Rubright, L. J. Vogt, Dr. C. O. Carr, Jesse Brown, J. C. Haring and George Kinne. Interment was made in the Massillon cemetery.

Thomas C. Miller, Gustave Sailer and Edward Jones, local saloon keepers, were arrested Tuesday, charged with

having violated the ordinance requiring them to keep their places of business closed on Sunday. The affidavit was filed by the Rev. Mr. Hare, now located in Canton, superintendent of the anti-saloon league. Mr. Sailer and Mr. Jones pleaded guilty, and were fined \$50 and costs each. Mr. Miller pleaded not guilty, and the mayor set his hearing for next Tuesday afternoon at 1 o'clock.

The final performance of the Imperial Band minstrels at Canal Fulton was given at that place on Saturday evening. The success was fully as great as that of the first night. J. F. Shepley sang the "Kam a Jam" as he never sang it before and made a big hit. Fred Freyer sang "Pity, Come Kiss Your Baby," and had to respond to two encores. Fred Beck was the star of the olio with his song and dance. Mr. Shepley also contributed a good number to the latter part of the programme in a new monologue written especially for him.

In response to an invitation by the Rev. J. F. Kuebler, the members of the Massillon and Canton courts of the Catholic Order of Foresters in a body attended services at St. Joseph's church Sunday evening. There were nearly a hundred present, the Cantonnians numbering about forty. The Rev. Father Gabriel preached on "Delayed Repentance." Services will be conducted at the church this evening and tomorrow evening. The members of the congregation feel that the mission work of the Rev. Fathers Gabriel and Joachim, the Passionists, who have conducted meetings for nearly two weeks, has been productive of much good.

## THE BETTER LIFE.

**The Passionist Fathers Close Their Mission.**

## MORE ACTIVE SPIRITUALLY

**The Result of the Meetings Exceeds Expectations—A Wave of Repentance Sweeps Over Sugar Creek Valley—Mourners' Benches in the Vicinity of Beach City Being Crowded.**

The missionary meetings which have been conducted at St. Joseph's Catholic church for more than a week past by the Passionist fathers, the Rev. Messrs. Gabriel and Joachim, with a view of stirring up the people to a more active spiritual life, closed Thursday evening, the efforts of the priests having met with abundant success. Those who had grown careless were aroused to a sense of duty, and the faithful were enthused with a zeal that means even greater activity and earnestness in the prosecution of religious work.

The Rev. Father Arnold, of Canton, and the Rev. Father Alton, of West Brookfield, attended the Tuesday evening meeting at the church. The Rev. Father Kaempfer, of St. Mary's church, and the Rev. Father Gerhardtstein, of Canal Fulton, bade farewell to the Passionist fathers at the rectory Tuesday afternoon. Jay Demoulin, of Canton, was also a guest at the rectory Tuesday. From Massillon the Rev. Fathers Gabriel and Joachim went to Canton, from which place they will go to Cleveland. The Rev. J. F. Kuebler accompanied them as far as Canton.

**CROWDING MOURNERS' BENCH.**  
WILMOT, Feb. 6.—The mourners' bench of Calvary church, between this place and Navarre, was crowded the last night of the revival. There were seven converts.

The Rev. D. W. Sprinkle is conducting a series of meetings at the Valley church.  
At the Evangelical church the Rev. J. N. Steffani nightly exhorts large audiences to undergo a change of heart, and many conversions are looked for. Pastor Steffani is assisted by the Rev. Mr. Manning of the M. E. church.

**MANY CONVERSIONS LOOKED FOR.**

**BEACH CITY, Feb. 6.**—The Rev. D. W. Sprinkle will this evening begin a series of revival meetings in the United Brethren church. Much interest is being manifested, and it is believed that many a change of heart will result.

**AN UNSUCCESSFUL REVIVAL.**

**JUSTUS, Feb. 6.**—The revival of three weeks conducted here by the Rev. Mr. Watson did not result in any converts. "We're all so good down here," remarked a man today, "that I guess there was no one left to convert."

**Advertised Letters.**

**"A Little Spark May**

**Make Much Work."**

The little "sparks" of bad blood lurking in the system should be quenched with Hood's Sarsaparilla, America's great blood purifier. It purifies, vitalizes and enriches the blood of both sexes and all ages. Cures scrofula, salt rheum, dyspepsia, catarrh.

**Hood's Sarsaparilla**  
Never Disappoints

## JOINT CONFERENCE.

**Illinois Operators the Cause of Discord.**

**WANT UNIFORM PRICES.**

**President Mitchell Declares That Failure to Agree on a Scale Will Result in a Great Strike—Operators are Opposed to the Run of Mine Standard.**

COLUMBUS, Feb. 4.—[By Associated Press]—Saturday's session of the joint conference of miners and operators adjourned at 5 o'clock, with no sign of an agreement in sight. The resolution for a scale, as presented by the operators, was taken up as the first order of business at the morning session. There was a long discussion, and on a vote being taken the operators lined up solidly for the resolution, and the miners were just as solid in opposition. The miners then presented their scale, as adopted at the Indianapolis convention, and it was taken up section by section. Four sections were discussed when the committee adjourned until 3 o'clock Monday afternoon.

The demands of the miners, fifteen in number, are as follows:

That the scale of prices be based on single run-of-mine standard.

That the differential between hand-pick and machinery mining be seven cents per ton.

That on and after April 1, 1901, an advance of ten cents, to take effect in all bituminous districts represented in the convention, except the thin vein of the competitive field.

That a uniform day wage scale for all outside employees, except weigh bosses and mine bosses, be formulated.

That all underground employees be advanced 30 per cent.

That eight hours shall constitute a day's work, and that the time required going into and returning from the mouth of the mine shall be included in the eight hours.

That the check-off by the company for organization become a part of the agreement.

That the scale for all narrow work be the same as entry scale.

That the same day wage scale prevail in Jackson county, Ohio, as prevail in other states.

That the Pittsburg prices and conditions shall prevail in the Irwin field; and that there will be no difference in the scale paid between Eastern and Western shippers.

Drivers shall not work more than eight hours, and taking mules to and from the stable by the drivers shall be included in the eight hours.

That eight consecutive hours shall constitute a day's work.

That the block coal of Indiana be advanced 14 cents per ton with present conditions.

That the day wage scale for outside and inside men, referred to, include any men of the Indiana block coal field. That the states of Michigan and Iowa become a part of the next interstate joint convention.

The vote was the same on all propositions except on the run-of-mine, in which the operators from Illinois voted with the miners. From the arguments of the miners in the committee it could be seen that the sections of the scale presented by them upon which they will make the hardest fight for adoption are the run-of-mine, the seven-cent differential between pick and machine mining, and the demand that eight hours' work of the drivers be counted from barn to barn. The latter proposition is one aimed to limit production, as with it in force the actual output of the mines would not be a seven-hour day.

There is every prospect of a long and hard struggle between the miners and operators, and there are many who express the fear that the two parties to the interstate agreement will not be able to get together. There are many conflicting interests in the conference, and the operators are not together, and cannot put a united front to the miners. Illinois is a disturbing element in the camp of the operators, and it does not line up with the other states on all questions.

COLUMBUS, Feb. 5.—[By Associated Press]—At the end of Monday's session of the scale committee of the joint interstate coal conference it can be stated that miners and operators are no nearer an agreement than when the conference first met. The Illinois operators have again broken over the traces and voted with the miners on another proposition, and are now in line with them on the demands for a run-of-mine scale and a uniform day wage in the mines of Jackson county.

The committee went into session at 2 o'clock Monday and resumed the discussion of uniform day wage for all outside employees. On the vote the miners were for and the operators were against the demand. It was the same with the demands for an advance of 30 per cent. for underground employees, for eight hours to constitute a day's work, the time employed going into and coming out of the mine to be included, for the check-off by the operators of all dues, and that narrow work be paid for the same as entry work.

The ninth proposition, that the same day wage scale prevail in Jackson county,

O., as in other states, provoked long discussion. The operators insist that the question is a local one in that district and the joint conference has nothing to do with it. The committee adjourned at 5:30 o'clock to meet this morning at 9 o'clock. There will be no session of the joint conference before Wednesday.

Both miners and operators say that some agreement will be reached on the eight-hour demands, of which there are three. Just what this will be they say has not yet been decided, but they feel sure that an agreement can be reached on it. This part of the scale will be reported to the conference on Wednesday if present plans are carried out.

COLUMBUS, Feb. 6.—[By Associated Press]—At the joint conference Tuesday afternoon, the Illinois operators forced the issue when they introduced a resolution to instruct the scale committee to draft an agreement covering the conditions and prices of both pick and machine mining, based upon lines of uniformity. The Illinois operators believe they were placed at a disadvantage with their competitors by the joint agreement adopted at Chicago, and want an adjustment that will put them on an even footing with the operators of other states.

Their aim is either to compel the adoption of Illinois prices and conditions throughout the competitive district or to force prices and conditions in Illinois to the level of other states. Illinois has a run-of-mine standard and a machine differential of seven to ten cents. In the other states the price of mining is based upon screened coal, and the machine differential is much greater. Ohio, Indiana and Western Pennsylvania operators say positively they will not accept the run-of-mine standard or a reduction in the machine differential. The Illinois miners say they will not consent to any change of prices or conditions in that state.

Both miners and operators are still hopeful of an agreement. President Mitchell, of the United Mine Workers, in his address to the conference, stated that the miners would insist upon the adoption of a single run-of-mine standard, a fixed differential of 7 cents between machine and pick mining, and a uniform scale for outside day work, and intimated that failure of the joint conference to agree upon a scale would mean a great strike.

When the joint conference met the scale committee reported that it had been unable to agree upon any of the propositions presented either by the miners or operators. F. L. Robbins then followed with an argument in favor of his proposition for a reduction of ten cents in the price of mining, saying that it was impossible for the Pittsburg operators to hold their trade at the present prices in competition with West Virginia coal. He said that West Virginia coal was now being sold even in Pittsburg. Mr. Robbins declared that the run-of-mine standard had been tried in that district, but had proved a failure.

## ZOAR COMMUNITY DISSOLVED

**The Village Now Governed Like Others of Same Size.**

A Canal Dover special to the Cleveland Plain Dealer says: "The very last act completing the dissolution of the society of communists at the historic village of Zoar, north of here, which disintegration was begun over two years ago, was consummated Monday, when the last surveying and apportionments were made. The arbitration committee has had its hands full to please each of the 136 inheritors, or members of the society. Not only the buildings in the town of Zoar, but also 7,000 acres of land have been apportioned. The valuation of properties received by each member averages about \$5,000. There was a spirited rivalry for the town property, but many were given lands in the remote part of the Zoar domain, and these will be obliged to build dwelling houses thereon. For the first time since the arrival a century ago of King John Bammeler, the Zoarite leader, and his band of German followers, the community is now governed like other towns of its size in the state. A mayor and councilmen have been elected and have already entered upon their new duties. The new regime is an awkward one for the communists and it will be some time before they get the hang of the new government."

Millions of people are familiar with DeWitt's Little Early Risers and those who use them find them to be famous little liver pills. Never gripe. Chas. W. Cupples, 139 W. Tremont St., Rider & Snyder, 12 E. Main St.

24 hours Cincinnati to Jacksonville and New Orleans, Queen & Crescent route and Southern R'y.

Recent experiments show that all classes of foods may be completely digested by a preparation called Kodol Dyspepsia Cure, which absolutely digests what you eat. As it is the only combination of all the natural digestants ever devised the demand for it has become enormous. It has never failed to cure the very worst cases of indigestion and it always gives instant relief. Chas. W. Cupples, 139 West Tremont street, Rider & Snyder, 12 East Main street.

"I was laid five weeks with the grip - nerves shattered, stomach and liver badly deranged. Was cured with Dr. Miles' Nerve and Nerve and Liver Pills."—D. C. Walker, Hallsville, O.

## For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. 25c a bottle.

## MANY HOMES MADE HAPPY.

OF ELK, MICHIGAN.

Mrs. Margaret H. Hensley, Elk, Genesee county, Mich., writes to Dr. Hartman, as follows:

"I am well and think I will need no more medicine. I feel so well, and all my old complaints are gone, which were many. I often did not know which way to turn. No one knew what I suffered. For forty-nine years I suffered but now I am cured, for which I thank Dr. Hartman for his advice and good treatment. I keep Peruna in the house all the time and shall never be without it."

"My husband had a cough for nine years. He took Peruna and it helped him. He looks quite young. He works hard every day and is getting fat. He takes Peruna three times a day. You don't know how thankful I feel toward you; I never think of you but to thank you and will do all I can for you."

Congressman J. H. Beardslee, of Alabama, one of the most influential members of the House of Representatives, in a letter written from Washington, D. C., gives his endorsement to the great catarrh remedy, Peruna, in the following words: "Yours Peruna is one of the best medicines I ever tried, and so family

should be without your remarkable remedy. As a tonic and a catarrh cure I know of nothing better."

There is but a single medicine which is a radical specific for catarrh. It is Peruna, which has stood a half century test. It has cured thousands of cases of catarrh. Ninety times in a hundred, those who have been cured of catarrh by Peruna thought they had some other disease.

The remedy to cure catarrh must be able to reach the mucous membrane, and this is exactly what Peruna does. Peruna operates at the fountain head. Peruna produces normal, clean and vigorous mucous membranes. Catarrh cannot remain in the system if Peruna is used according to directions.

Address The Peruna Medicine Company, Columbus, Ohio, for a free book on catarrh.

## COUNTY SEAT NEWS.

**The County City Council Donates \$3,000 to Aultman Hospital**

CANTON, Feb. 6.—At the Monday evening meeting of the city council it was unanimously decided to donate the \$3,000 asked for by the trustees of the Aultman hospital. The trustees are to receive the first installment of \$1,000 on April 1, 1901, the second on October 1, 1901, and the third \$1,000 on April 1, 1902. The money was donated to the hospital on condition "that the association receive into the wards of its hospital and furnish necessary care and attention to all sick and disabled persons of said city to the limit and capacity of said wards who are financially unable to bear the expense of proper medical and surgical aid, nursing, care, attention and sustenance, and also all sick and disabled firemen, and members of the police force of said city and all other city employees who become sick or disabled while in the discharge of their duty."

Norwood Taylor, son of Judge Isaac H. Taylor, died at the Aultman Tuesday night, aged 33 years. Mr. Taylor was a member of the Eighth Ohio during the campaign in Cuba, and later saw service in the Philippines as a member of the Fourteenth regiment, receiving his discharge on account of disability. Several months ago he suffered a paralytic stroke, and for weeks his death has been expected at any time. The funeral will be held Thursday afternoon.

Word has been received that the party accompanying the body of Edward S. Raff will leave Tucson, Ariz., today. The body will probably reach this city on Sunday.

Final account has been filed in the estate of Wm. Selworm, of Massillon.

The will of the late Frank C. Sibila, of Massillon, has been proved. It is dated June 5, 1900. All property of the deceased, both personal and real, is left to his wife, Sarah Sibila, during her natural life or so long as she may remain his widow. After her death it is to be divided equally between his eight children. The executor is directed to apply his life insurance and personal property to the payment of his debts, and if that be not sufficient, he is to sell the two houses in South Mill street.

However, it was the desire of the deceased that the property be retained by the widow and children if possible. Edward and Elizabeth Sibila, son and daughter of the deceased, are named as executor and executrix, and it was his request that no bond be required of them. The instrument was witnessed by O. C. Volkmar and Frank Warth, Jr.

In the estate of the late Orlando B. Weimer, of Sugar Creek township, will has been filed for probate, and citation of the widow to elect has been ordered. George Pfouts has been appointed executor.

The Bucher-Gibbs company shipped six car loads of plows and cultivators to France and Russia last week.

News was received in this city on Saturday of the death of Edward S. Raff at Tucson, Ari. Mr. Raff was president of the Central Savings bank, but for the past year, owing to ill health, had devoted but little time to the business of the institution. He was an active member of the board of trade and of the Elks, treasurer of the Y. M. C. A., a director of the Canton Library Association and a member of Trinity Lutheran church.

The Stark Telephone Company has purchased a lot in West Tuscarawas street, at the intersection of Cleveland

avenue, on which an exchange building will be erected.

Deputy Clerk of Courts Bliss spent most of the day Saturday in preparing the bar list for the February term of the Stark county circuit court. The term commences on Tuesday, February 26, and will be the short term of the year.

In the estate of James Keller, of Navarre, private sale of personal property has been ordered.

In the guardianship of Augustine Edgington, of Lawrence township, the seventh partial account has been filed.

In the guardianship of Harry Kramer, of Massillon, the first partial account has been filed.

Final account has been filed in the estate of Elizabeth Abele, of Jackson township.

## THE ANNUAL MEETING.

**Stockholders of the M. & C. Elect Directors.**

Stockholders of the Massillon & Cleveland Railroad Company Tuesday elected the following directors: J. H. Haley, Henry Amig, L. B. Harrison, Senator M. A. Hanna, W. C. Eggleston, W. F. Raff and E. L. Arnold, none of whom reside in Massillon. The meeting was held in the office of the Massillon Savings and Banking Company, most of the stockholders being represented by proxies, held by J. A. Shoemaker and F. W. Arnold, of this city, and J. H. Haley and C. Haley, of Allegheny. The directors elected will form a part of the board of the P., F. W. & C. Railway Company, with which the M. & C. is connected. The late John Sherman was formerly a director of the company. He has been succeeded by Mr. Haley.

## Recoveries From Grip

Mrs. E. I. Masters, at her home in Monitor, Ind., used Dr. Miles' Nerve and Pills to cure after effects of grip.

Mrs. A. E. Loeper, in the little town of Modolia, Minn., used Dr. Miles' Pain Pills and Nerve and Liver Pills and was well in a few days.

President McKinley is slowly recovering from grip and its after effects.

George J. Flannery was relieved of his awful pains in his head in fifteen minutes by the use of Dr. Miles' Pain Pills. Now he is rapidly recovering at his home in Buffalo, N. Y.

Speaker Henderson is again in his chair in the House of Representatives after a severe attack of grip.

J. C. Helfrey, foreman at the Westinghouse factory in East Pittsburg, had a severe attack of grip, but he used Dr. Miles' Nerve and Pain Pills and was soon back in his place.

Rev. C. Boly was in a serious condition at his home in St. Paris, O., but Dr. Miles' Nerve and Nerve and Liver Pills pulled him through all right.

**Western Rates Reduced.**

Greatly reduced one-way rates will be in effect from Chicago via the Wisconsin Central Railway to points in Minnesota, North Dakota, Montana, Idaho, Oregon, Washington and British Columbia each Tuesday, commencing February 12th and continuing until April 30th.

For detailed information inquire of nearest ticket agent, or address T. D. Campbell, D. P. A., 42 Carew Building, Cincinnati, O. C. E. Johnson, D. P. A., 621 Park Building, Pittsburg, Pa., or Jas. C. Pond, Gen'l Passenger Agent, Milwaukee, Wis.

"I was given up to die from heart and nervous troubles caused by grip. Six bottles each of Dr. Miles' Heart Cure and Nerve cured me." Mrs. John Wollet, Jefferson, Wis.

## FASHIONS IN FURS.

MANY SHAPES, MANY SKINS AND FANCIFUL GARNITURES.

Short Coats, Long Coats, Boas and Boleros, Muffs and Toggles All in Fur—Fur Used For Trimmings on Cloth and Lace Gowns.

Fashion is a tale of furs. Short coats and long coats, boas and boleros, muffs and hats are all made of fur, and in spite of the threats of the authorities the sealskin jacket is as popular as ever. Very smart indeed is the latest example of this, with the square tailed back and cut rather short on the hips.

The whole fox has been adopted, and we may see these in every color hanging over the shoulders of lovely

BOLERO OF SEALSKIN.

WOMAN. To wear a whole animal is not perhaps entirely gratifying to the aesthetic sense. We are able to forget more easily the details of their slaughter when we merely gaze upon the skins of the bodies worked into garments. There is nothing very heart-rending in the sight of a sable cape, except it be on your dearest friend and you want it for yourself, but the whole dead animal staring at you with glazed but reproachful eyes is a disquieting object. However, the whole fox has obtained in white, black and brown and blue, and muffs are made to match, with heads set in the center, and for little children these are to be seen in white. A fur, however, more appropriate to children is miniver, and most attractive little boas and muffs are made of this. Then, too, ermine is very well suited to the young child, and, in combination with rose pink or pale blue or mauve cloth, it will make a beautiful winter coat.

The influence of the fashion of fur is discernible on the latest cloths, which are mostly rough of surface and zibeline in texture. Again some of the cloth dresses show designs of fur traced with gold or fanciful braid, the flat furs being mostly used for such purposes, caracal and broadtail in preference.

A very stylish bolero of sealskin appears in the first cut, just draped over the bust and held by an engraved gold button, while the fringe is of old gold and steel beads, the cuffs and ends of the stole being embroidered in dull gold braid, steel and gold beads. The muffs are decorated to match.

The second costume is of a pale ochre colored cloth, with a bolero of chipmunk.

CLOTH AND CHINCHILLA COSTUME.

la, and it is worn with most excellent effect over a blouse of very coarse lace.

Fur intrudes itself upon the lace dresses for evening wear, and some of the elaborate applications on mousseline or silk show patterns outlined in fur.

### French Breakfasts.

The term déjeuner applies to two different meals in France—namely, the petit déjeuner, consisting of the early cup of tea, coffee or chocolate with roll, and the déjeuner à la fourchette, which is equivalent to the American luncheon.

## CONQUERED BY TIME.

Frigate Nelson, Once the Strongest Vessel Afloat, Broken Up.

England with her enormous navy could easily afford to sacrifice a battleship or two, so that it is perhaps not very surprising to learn that the Nelson, formerly the largest and strongest battleship of her majesty's navy, is being broken up in the harbor of Sydney. But the Nelson not only never did any fighting, but never would do any, for she belongs to the old, long obsolete class of wooden ships and

H. M. S. NELSON.

equipped as she was in her prime would be scarcely a match for the smallest modern gunboat.

The Nelson was at one time the largest vessel afloat, and many experts consider her the best wooden ship ever built. She was launched in 1816, and such expectations were aroused by her great size and strength that she was named for England's immortal admiral and it was confidently forecast that she would last a century or two. It is the sad fate of the Nelson to be broken up to be made into coal barges for the iron ships that were unscarred in the days of her glory.

### NEW HEAD NURSE.

The Surgeon General Has Chosen One to Care For Our Soldiers.

Uncle Sam's soldier boys, whether they are engaged on peaceful garrison duty in the United States or "hiking" after the wily Filipinos through the swamps of Luzon, or wherever they may be, deserve the best care that can be given them, and it is the duty of our government to see that they get it. It is to this end that the war department has just appointed a new chief nurse of the army to succeed Dr. Anita Newcomb McGee, who has until now held the position.

Surgeon General Sternberg has for several months been seeking an efficient successor to Dr. McGee, and he has found one in Mrs. Dita H. Kinney. The position of chief nurse of the army is one that requires a wide knowledge of the profession and a love for it, as well as an unlimited supply of tact and skill. All these qualifications are possessed by Mrs. Kinney. She served her apprenticeship as a nurse in the Massachusetts General hospital, where she was graduated with the highest honors ever conferred by that celebrated institution. Since then she has held a number of

From a recent photo.

MRS. DITA H. KINNEY.

responsible positions, among them those of chief nurse in the hospitals of St. Paul and Boston and in the French hospital of San Francisco. Mrs. Kinney has since the Spanish-American war been connected with the army, and until recently she was stationed at the Presidio, as the army headquarters near the Golden Gate are called. She is well known in San Francisco.

When the great base hospital for our soldiers at Nagasaki, Japan, was projected recently by the government Mrs. Kinney was selected as chief nurse. But the plan was abandoned, and she has since done service elsewhere.

Our army has no regular body of trained nurses such as the English has. When need for their services arises our government calls on the Red Cross and kindred organizations. This plan worked fairly well in the past, but many military authorities are in favor of the establishment of a great training school for nurses such as the English government has had for many years at Netley. According to an army officer, "the course in such a school would be divided into hospital and field work. In the hospitals the time to be passed in preparing and applying bandages, in treating diseases and administering anesthetics, etc.; in field work, in learning first aid to the wounded, how to put up a field hospital, etc."

### His Live Stock.

A speculative Scotch gentleman wanted to dispose of some bees, so to attract purchasers he printed the following: "I have for sale of live stock, comprising not less than 140,000 head with an unlimited right of pasturage." The ingenious trick succeeded to admiration, for his stock brought "high prices."

## FINE NEW BOULEVARD.

Great Plan Projected For a Palisades Drive.

### MOST MAGNIFICENT IN AMERICA.

Road Will Be Built From Fort Lee to Tuxedo Along the Hudson Through Historic Pines and World Famed Scenery—Length Will Be About Forty Miles.

The project of building a driveway along the base of the Palisades as planned by the Palisades commission has developed a still greater scheme which will result in the creation of the most magnificent boulevard in the country, says the New York Journal. The wealthy men of the Tuxedo Park association and also prominent citizens living on the west bank of the lower Hudson river are interested and definite steps have already been taken.

The greater project is to continue the Palisades drive from the point where the commission has planned to end it, up along the Hudson river to the State park at Stony Point in Rockland county. Then the Tuxedo people will construct a road from the park to the river, connecting with the Palisades drive. This would make a drive from Fort Lee to Stony Point along the river, and then across country to Tuxedo, 35 to 40 miles in length, through scenery famed the world over.

Tuxedo park has long desired an outlet to the Hudson river. Except by train there is no way of reaching the park from New York city without a roundabout drive. With the Palisades road continuing up to Stony Point, and with a drive constructed from the river to the park, the wealthy members could reach there by a pleasant drive. They also could go up the river in their yachts, and then drive from Grassy Point across the country to the park.

Grassy Point, which is a short distance below Stony Point, is where the Tuxedo road will end. For the past few weeks a corps of civil engineers has been at work there, and although great secrecy has been maintained it has been learned that they are making a preliminary survey for the road. This road will cross the famous Ramapo mountains and wind through scenery of the most picturesque and sublime description. It will be built by experts in roadmaking and will cost a great sum.

The end of the proposed Palisades drive is just below Sparkill, four miles from Nyack. From Nyack to Sparkill there is a fine boulevard running along the river and known as the River road. To connect this with the Palisades drive will be an easy matter. Then the road would have to be built from Nyack on to Stony Point. Wealthy citizens are enthusiastic over the enterprise, and it is thought that with aid from the state Rockland county will build the road.

Stony Point, where "Mad Anthony" Wayne fought his celebrated battle, has lately been acquired by the state and a park made of it. The road would thus connect the two state parks. The project has the approval of prominent officials. As soon as work is commenced on the Palisades drive the matter of building the connecting links will be pushed. Work on the Tuxedo road will be commenced at once regardless of the Palisades drive.

### TO GROW COTTON IN CUBA.

Havana Western Railroad Trying to Induce Its Culture.

The Havana Western railway, connecting the capital with Pinar del Rio city and the noted Vuelto Abajo tobacco districts, is making an effort to reintroduce the culture of cotton into Cuba along the line of the road, says a New Orleans dispatch to the New York Sun. It has procured a quantity of seed from Egypt and the sea island plantations of Georgia and the Long sections of Mississippi valley, has obtained all possible information with reference to the cotton plant and its culture and is having a pamphlet printed in Spanish for distribution with the seeds, being freely given out to plantation owners along the line willing to experiment with the fiber. Should a sufficient number of them plant, the railroad company next year will put up, at either Havana or at Pinar del Rio, a gin and all necessary machinery for the convenience of growers.

Cotton was cultivated extensively in the district 50 years ago, and today cotton trees 20 feet high are to be found growing wild in many parts of the district, the fiber, however, being coarse and green.

## FITTING THE DEFENDER.

How the Hollow Spar For the Low-ton Boat Is Being Made.

Workmen are now engaged on the hollow wooden spar which is to be used for the boom of the Crownshield America's cup defender. The log was squared, as is usual in making all hollow spars. This is done to present uniform flat surfaces on four sides, so that the spar can be divided evenly.

After this it was marked along its entire length in the center. It was then raised so that the work of sawing it in two could be carried on. It was blocked up in the middle and shores put under either end. At the lower end a strake was put on it with a small tackle which was suspended from a pair of shears. The work of sawing through it was then begun.

The next work will be to hollow out both sides by removing the heart of the log. After enough has been taken out the two pieces will be hung up to season. It is not likely that any further work will be done on them before May. By that time it is considered they will be seasoned enough for the finishing work. The two parts will be glued together and secured with clamps or jacks.

It will remain in the glue for some time, until it is considered to have been thoroughly set. Then the clamps will be taken off and the spar rounded into shape. It will be planned and smoothed up, and the iron wires will be put on, which will insure keeping the two parts securely together.

This spar may not be finished until June, for it is intended to equip the yacht first with steel spars, and if these break down or prove inefficient the hollow wooden ones will be used. The one which is being worked now is of Oregon pine and though perfectly green looks as though it will season beautifully. It is said to be 116 feet long, but looks a bit longer.—Boston Globe.

### BOY BUILDS AN AUTO.

Andrew Thompson of Plainfield a Genius of Mechanics.

Andrew Thompson, a 19-year-old boy who lives in Plainfield, N. J., has demonstrated his genius in mechanics and electricity to a remarkable degree by having just completed an automobile without assistance.

Young Thompson entered the employ of an automobile factory in Elizabethtown four years ago. He worked there for a few years and in that time succeeded in acquiring a wonderful amount of practical knowledge about the business. Before he left he began making a draft of an electric vehicle. In many of the details of the machine he proceeded upon new and original lines. Two years ago he went to Plainfield, and since that time he has devoted all his spare moments to the building of the automobile.

In the meantime, however, he has found time to learn to become an expert telegrapher and do odd jobs of electrical work about the city. All of his savings have been utilized in purchasing the material used in the automobile.

The youthful owner intends to use it for his own enjoyment for several weeks this summer and then to sell it at a good profit.

### Medical Examination Before Marriage.

A marriage license bill has been introduced in the Wisconsin senate which promises to eclipse the marriage law of 1899. This bill provides that no persons can marry who are suffering from true or hereditary insanity, insanity caused by vicious habits or the use of drugs, consumption and various other diseases which are named in the bill. Every person who wishes to marry is required to go before an examining board of three surgeons to be appointed in each county of the state by the county judge and must pass an examination before a marriage license can be issued. In addition to this, all male candidates for matrimony who are under 25 years of age and all female candidates under 18 years must produce a written consent of their parents before they can secure a license. Any clergyman, justice of the peace or other person who can perform marriages and who marries any couples who do not produce a certificate from the examining physicians of his county is to be fined not more than \$500 or confined in prison not more than one year.

### Church Windows Up to Date.

A unique window has just been erected in the parish church of Clacton-on-Sea to the memory of one of the imperial yeomanry who died in hospital at Heliopolis on Sept. 7, says the London Express. In striking colors it represents the Saviour conversing with two groups of figures, among whom are a soldier in khaki, a Red Cross nurse, a man-of-war's man and a Zulu chief.

# A FORWARD STEP.

Beach City to Have Building All Its Own.

TO CELEBRATE THE 22ND.

School Children Will Carry Out a Programme in the Beach City Opera House—Real Estate Transfers at Willmot—Lecture by Prof. Mohler at Orrville—News of Camp Creek, Green Oak, Bolivar, Sonnenberg and elsewhere.

BEACH CITY, Feb. 6.—The construction of the town hall is well under way. Bosc & Leonard are doing the work. The building is to be of brick, and will cost \$1,200. It is to be located on the corner of the mayor, marshal and clerk, and also the jail, the fire fighting apparatus and the council chamber. Bonds have been issued to raise the money necessary.

The anniversary of Washington's birthday will be celebrated in the opera house on Feb. 22. A musical programme will be carried out, school children being the main participants.

WILMOT, Feb. 6.—J. C. Wright, of Pittsburg, has sold the hotel at this place to Mrs. Mattie Canner, who has been its efficient landlady for some time. Mrs. Canner will continue in charge of the hotel.

William Moyer, a farmer now residing near the village, has purchased a lot in the town, and will shortly begin the erection of a residence. He will retire from farming.

Editor Shanower, of the Review, is still with the grip.

BOLIVAR, Feb. 6.—The Tuscarawas County Farmers' Institute, which was held in Vesper hall, February 1 and 2, was largely attended.

Walter Shaeffer is at home from Canton on a week's vacation.

Miss Lotta Haglock is out of school this week, owing to an attack of grip.

Miss Lizzie Lash spent last Sunday in Cleveland.

Mrs. R. L. Gelzer, of Toledo, is visiting her parents, Mr. and Mrs. John Ramsey, this week.

Mrs. C. J. Pfau left this week for San Francisco, Cal., being called there by the illness of her mother.

Miss Thelma Kieker, of Akron, visited friends here several days last week.

THE NEWS OF ORRVILLE.

ORRVILLE, Feb. 6.—At the present time there is but one contagious disease in town. Irene Bowman, aged about 14 years, has scarlet fever. Her recovery is assured.

Miss Anna Wertz, day operator at the telephone exchange here, is off duty on account of illness.

Prof. J. B. Mohler, superintendent of schools here, delivered his address on "Inspired Teaching" on Sunday evening to a union Sunday school meeting of all the churches of Barberton.

A. B. Koch has bought the Hamilton property in Market street next to the Mansion House, for \$1,800.

Miss Blanche McDowell and Miss Elsie King visited Miss King's mother and family at Smithville over Sunday.

The Rev. L. Twine, pastor of the Presbyterian church here, assisted the Rev. Mr. Hackett, of Apple Creek, in services there last week.

A. H. Postalwaite has returned from his ten days' trip to New Orleans and the South.

Mrs. O. D. Braden is visiting with her parents at Wooster this week.

Mr. and Mrs. J. A. Hamilton are moving to Massillon today. Mr. and Mrs. Hamilton have been residents of this village for a great many years, and we are sorry to lose them.

The Kuebler-Stang Brewing and Malt- ing Company are erecting a cold storage warehouse along the Ft. Wayne tracks, near the station.

The funeral of the infant daughter of Mr. and Mrs. John Budd took place on Tuesday. Interment was made at Silver Hill. The child died on Sunday evening.

GREEN OAK GOSSIP.

GREEN OAK, Feb. 6.—The sudden changes in weather are causing much sickness here.

A number of people attended the closing evangelistic meeting at Dalton last Sunday evening.

Mrs. Samuel Saltzman, who has been visiting in Massillon for the past four weeks, has returned to her home.

The Weaver Brothers will have a public sale some time this month. They will move to Ashland in the near future.

The Dalton Mineral Company has leased all the available land in this vicinity and expect to begin to drill soon. The prospects are encouraging. Oil oozes out of the ground at some special places already.

Mrs. Davis, of Richland county, the mother of Mrs. Arthur Weaver, is the guest of her daughter, who has been sick for several weeks.

Mr. Blosser expects to move on the Hostetter farm now occupied by Oliver Bowers.

William Swanger has purchased a farm of forty-seven acres near Apple Creek for \$1,500.

N. C. McDowell was in Massillon one day last week on business.

William Weaver will occupy the Weaver farm during the coming year.

SONNENBERG NOTES.

SONNENBERG, Feb. 6.—The literary society will meet at the Sonnenberg school house next Friday evening.

Several houses in this village are under quarantine on account of diphtheria.

David Lehman and Daniel Welty are on the sick list.

One of our farmers, Daniel Stebbins, has taken a position with C. C. Welty

for the coming summer.

Mr. and Mrs. Fred Kamps entertained a party of friends at their home last Saturday.

ALL THE NEWS OF CAMP CREEK.

CAMP CREEK, Feb. 6.—Grip has become epidemic in this community.

The Great Hill Literary Society will be in session next Friday evening.

Philip Kiedler, who went to Clinton, Ia., to attend his father's funeral, several weeks ago, has recently returned home.

Zachariah Boughman contemplates erecting a new dwelling house this coming summer.

The present inclemency of the weather is a good indication that the groundhog saw his shadow last Saturday.

Ritchie, son of Mr. and Mrs. Edward Owens, is very ill with whooping cough.

Local coal mines are working but little better than half time.

An admission of ten cents was charged at the chapel literary society meeting last Wednesday evening, to liquidate the cost of an organ which was purchased for the school room some time ago.

The Truby orchestra and Patterson Proctor with his phonograph rendered music for the occasion.

STANWOOD BRIEFS.

STANWOOD, Feb. 5.—A number of the people of this place are suffering from the grip.

Mrs. Williams' condition is not much improved, and she is suffering from cancer on her hand.

Mr. and Mrs. Christ Garver have moved into a part of Jacob Ringley's house.

Mr. and Mrs. I. J. Oberlin, of Mansfield, visited Mr. Oberlin's mother last Thursday.

The Stanwood singing class tendered Mr. and Mrs. Edward S. Miller a surprise last Thursday evening.

The evening was spent in rendering several vocal and instrumental selections. Mrs. Miller was formerly organist for the class.

William Bowman is visiting relatives near Wooster.

The Rev. W. S. Adams will hold services at this place on Sunday afternoon.

NOTES FROM GENOA.

GENOA, Feb. 4.—Last Friday evening the literary society meeting was well attended.

The teachers' institute held February 2 was largely attended by people from Massillon and Canton.

There will be an institute at West Brookfield on March 3.

Adam Knice went to Canton last Saturday on business.

A number of our Genoa people attended Jacob Kemery's sale on January 30.

Alfred Marchand and Noah Graber helped Ranelle Foltz to haul logs on last Thursday.

There are a number of cases of whooping cough in this vicinity.

Frank Seese, of Justus, will move on the John Schneider property this spring.

Mrs. Louis Boli is still seriously ill with heart trouble.

Lan Gallatin is at home on a visit from Pennsylvania where he has been sawing lumber for some time.

ALLIED THIEVES ARRESTED.

NAYARKE, Feb. 5.—Elmer Barkheimer, Ira Crumley and Robert Anderson, charged with having stolen two horse blankets, a lap robe and a whip from the buggy of Jerome Snyder, Saturday night, pleaded not guilty before Mayor Warwick, Monday. They were unable to give bond for their appearance in probate court, so the mayor ordered them taken to jail.

NEWMAN NEWS.

NEWMAN, Feb. 7.—Our local church held a series of meetings last week which resulted in five conversions.

William Weidner, agent for the Prudential Insurance Company, attended the banquet given at Canton last Friday evening, and reports a good time.

William Nutting and J. Dixon, of Coxiana, were the guests of John Prosser last Sunday.

August Peters made a business trip to Cleveland one day last week. After his return home he had the misfortune to lose one of his best horses. This makes nineteen horses he has lost since he began farming.

Our brickyard contemplates making considerable improvement this spring.

The Krause and Drake coal mines have become exhausted and all hands are now busy getting the pumps out and collecting the machinery together preparatory to removing them to other territory.

It is hoped that the joint conference of miners and operators at Columbus will come together and adjust all matters of dispute in an equitable manner, without the necessity of resorting to strikes.

The funeral of the late David H. Jones, who died last Saturday morning from heart trouble, was held on Tuesday afternoon at 1 o'clock, services being conducted in our village church by the Rev. Mr. Ford, of the First Baptist church of Massillon. The deceased was a native of South Wales, but had resided in this vicinity for many years, and carried the United States mail from Newman to Massillon for five years. He leaves three sons and one daughter. The remains were interred in the Navarre cemetery. The pallbearers were William Forrest, John P. Osner, Rees Harris, T. Jefferson Morgan, John Rummings and Wm. Findley.

The family desire to return their thanks to the many friends who rendered valuable assistance during the sickness and at the death of their loved one.

William J. Masters, of Massillon, circulated among his many former associates at his old home on Wednesday.

place on Tuesday. Interment was made in St. Clement's cemetery. Mrs. Longley was 70 years of age. Her husband died eight years ago. She is survived by four daughters and two sons: Mrs. Metzger, of Massachusetts; Mrs. Shilts, of New Berlin; Mrs. Willifer and Miss Linnie Longley, of Navarre; Conrad and William Longley, of Shelby. Death occurred at the home of Mrs. Willifer.

PIGION RUN AND SURROUNDINGS.

PIGION RUN, Feb. 7.—Harmon Trubey, who has been ill, is not improving very fast.

Samuel McIntosh is drilling for water for Mrs. Elmina Whitmore.

The graphophone entertainment held at the chapel schoolhouse proved to be a success, clearing \$8.50, which will go toward the organ the school recently purchased.

Miss Trubey has purchased a new piano.

Philip Reidesel has returned from Iowa, where he attended the funeral of John Reidesel, who was his uncle, and not his father, as was stated.

Casey Trubey, who has been visiting Mr. and Mrs. Trubey, at this place, returned to her home in Chicago on Friday.

The Chapel theatrical school is contemplating holding an entertainment in the near future.

A number of our citizens have enjoyed a week of fox hunting in the timbers of Christ. Weller's woods, which resulted in the tiring out of both hunters and dogs. The shy little animal sought refuge among the rocks of the woods.

The Pigeon Run band is practicing for a concert to be given in the near future.

SIXTEEN AFFAIRS.

SIXTEEN, Feb. 7.—Preaching services are being held here every evening this week by the Rev. Mr. Adams.

The infant child of Louis Berg, of Sippo, was buried on Tuesday.

The Rev. Mr. Arnold, of Dayton, spent Sunday at Henry Erb's residence.

The young people of this vicinity are preparing to give an entertainment in the near future.

Mr. Snively, of Massillon, father of I. N. and G. R. Snively, of this place, is seriously ill.

The literary society meets every two weeks at present.

The mines of this neighborhood are working steadily.

GOSSIP FROM NAVARRE.

NAVARRE, Feb. 7.—J. J. Grant, of Canton, was in town on Monday.

John Kelly went to Canal Fulton on Wednesday.

Miss Maude McFarland is very ill with the grip.

Mrs. N. Evans is visiting relatives in Bowerstown.

Tom Doyle is lying very ill at the home of his aunt, Mrs. Watts.

Mr. King, of Canton, took possession of the Kelly House on Tuesday evening.

Florence Long, former proprietor of the Kelly House, will remain in town several days.

The Misses Mayme Hannon and Dolly Rindorf, of Beach City, were in town on Monday and Tuesday.

Mr. Goesuch, who has been ill for some time, is no better at present.

At Toronto, O., large quantities of goods taken from the job of the alleged river pirates arrested there Saturday were identified by farmers along the river and many charges of robbery will be filed against the defendants.

TEACHERS' EXAMINATION.

Seventy-four Applicants Appear Before the County Board.

Seventy-four applicants for certificates attended the teachers' examination at Canton last Saturday. The following are the questions asked:

GEOGRAPHY.

Name, in order of size, the ten largest cities of the United States.

How do you account for the change in rank of some of these cities during the past decade? Do you think Cleveland will rank higher in 1910? Why?

What is the land area of the earth? Of Ohio? Of Stark county?

Through the valley of what river in Nevada does the Pacific railroad pass? Trace a railroad from Canton to Cincinnati and name five cities on the route.

Bound Colorado. Define physical geography. From what science does it include applications?

Name the principal seismic areas of the world.

Draw the county map, showing border counties and their county seats.

Locate Guam. Shetland Islands.

Why were New York and Virginia so called? Give one cause, one important event, and one effect of the French and Indian war.

Describe the heart as to size, location, shape, covering, lining and movement. How are bones nourished?

Name six functions of the skin.

(a) By what means the circulation of the blood discovered? (b) Name the digestive fluids.

Describe the essential organ of voice. Explain the terms stimulant, narcotic, dipsomania, cocaine and myopia.

GRAMMAR.

(a) How are the rules of English grammar determined? (b) What are the ends to be gained by language study?

Write correctly and give reasons for each change you make.

(a) On the whole, I think one might feel that they had seen something worth while at the fair.

(b) In Westminster abbey is buried all the kings and queens of England.

(c) I will fail in my examinations if I do not study harder.

(d) If I was five years older, I would enter the army.

(e) The board of examiners meet next month.

(f) I have had three years' experience.

Use in separate sentences the phrase "to write," substantively, adverbially, adjectively.

Write the past perfect tense of the following verbs, using a sentence for each verb: Have, see, go, teach, hang, cut, swim, sit, hurt, learn.

All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside.

Name all the adjectives in the above. All the adverbs. Parse capitalized words.

What is inflection? Why does English have so little inflection? Give five rules for forming the plural of nouns. Illustrate each rule.

Construct an outline of a composition on "The Flag of Our Country."

ARITHMETIC.

What is the chief object in the study of arithmetic? In teaching this subject what parts ought to be given the most attention?

Multiply 7-9 by 4-5 and explain the process.

I bought 30 pounds of beef for \$9.60, paying 1 cent per pound more for 50 pounds of it than for the remainder.

How much did I give for the 80 pounds? What is the value of 36 three-inch planks 22 ft. long, 16 in. wide, at \$17.60 per M?

The length of a rectangular field containing 30 acres is twice its width: what is the distance around the field?

Divide .04 by .0002 and explain the process.

How many square inches on the surface of a globe whose radius is 15 inches? The distance from Albany to Milwaukee is 625 miles. A degree of longitude at these places is 54 miles; what is the time at Albany when it is 10 o'clock a. m. at Milwaukee?

Find the weight in tons of 1,000,000 silver dollars, the weight of a dollar being 412½ grs.

If 2 apples and 3 pears are worth 14 cents, and if 5 apples and 7 pears are worth 33 cents, how much is 1 pear worth?

THEORY AND PRACTICE.

Why should all teachers who read the O. T. R. C. course, or a part of it, become members of the O. T. R. C.?

Why do you leave, for your successor, records showing the classification, standing, etc., of the pupils of the school?

Give some rules for the recitation. What are the ends of teaching? Name the two best methods to teach primary reading.

What are the assimilation studies? Define perception, altruism.

SPELLING.

Legible, legally, lapel, hemorrhage, bolster, camera, nitrogenous, legitimate, sepia, trestle, agate, crucial, rhetoric, spigot, quarries, codicil, ingredient, resurrection, battalion, insinuate, hypocrisy, nonpareil, superintendent, incendiary, laboratory, crucifix, marjoram, pedagogy, missiles, concurrent, transitive, centennial, renaissance.
